Age of Steam 1859-1914** Stephen S. Roberts,2021-10-31 This outstanding book will be essential for future studies of naval  
policy in the period between la Gloire and the Great War The Naval Review This book is the first comprehensive listing in  
English of more than 1400 warships that were added to the official French navy fleet list between 1 January 1859 and World  
War I It includes everything from the largest battleships to a small armoured gunboat that looked like a floating egg  
Reflecting the main phases of naval policy the ships are listed in three separate parts to keep contemporary designs together  
and then by ship type and class For each class the book provides a design history explaining why the ships were built  
substantial technical characteristics for the ships as completed and after major reconstructions and selected career  
milestones including the ultimate fate of each ship Following the earlier volumes written jointly with Rif Winfield French  
Warships in the Age of Sail 1626 1786 and French Warships in the Age of Sail 1786 1861 this trilogy now provides a  
complete picture of the development of French warships over a period of almost three centuries As a technical reference on  
the French ships of 1859 to 1914 this book is a must for the serious naval architecture student modeler or enthusiast So  
much solid information is packed in this book arranged logically clearly and with so many illustrations I cannot see where  
another volume on this subject can compete Highly recommended Nautical Research Journal Superlatives abound in
