Word Crafting:

Crafting Writers, K-6 Elizabeth Hale, 2008 How do we teach elementary students to independently use the different elements of craft that are discussed and taught in lessons We begin by honoring the reality that terms like voice sentence fluency and writing with detail are descriptions of where we want our students to be not next steps on how to reach those goals In *Crafting Writers K 6* Elizabeth Hale shows us how to identify specific elements of craft when assessing student work and planning instruction and use them to teach students the specific craft techniques that will move them forward as writers Liz offers practical information that teachers can use immediately in their classrooms She also presents a concrete process for noticing craft in writing so teachers can develop and plan craft lessons based on their students writing Learning the techniques that make up good writing also allows teachers to see craft in many different levels of writing a skill that is particularly powerful when conferring with below grade level writers Additional chapters look closely at assessment and classroom management practices like group conferring Most of us know good writing when we read it but writing teachers need to know what makes it work Filled with easy to use charts and practical lessons *Crafting Writers K 6* provides clear insight into identifying and teaching the small elements that make good writing successful

Making Feminist Media Elizabeth Groeneveld,2016-08-30 Making Feminist Media provides new ways of thinking about the vibrant media and craft cultures generated by Riot Grrrl and feminism s third wave It focuses on a cluster of feminist publications including BUST Bitch HUES Venus Zine and Rockrgrl that began as zines in the 1990s By tracking their successes and failures this book provides insight into the politics of feminism s recent past Making Feminist Media brings together interviews with magazine editors research from zine archives and analysis of the advertising articles editorials and letters to the editor found in third wave feminist magazines It situates these publications within the long history of feminist publishing in the United States and Canada and argues that third wave feminist magazines share important continuities and breaks with their historical forerunners These publishing lineages challenge the still dominant and hotly contested wave metaphor categorization of feminist culture The stories struggles and strategies of these magazines not only represent contemporary feminism they create and shape feminist cultures The publications provide a feminist counter public sphere in which the competing interests of editors writers readers and advertisers can interact Making Feminist Media argues that reading feminist magazines is far more than the consumption of information or entertainment it is a profoundly intimate and political activity that shapes how readers understand themselves and each other as feminist thinkers
