*Knowledge, Power, and Education* Michael W. Apple, 2013 For more than three decades Michael Apple has sought to uncover and articulate the connections among knowledge teaching and power in education In this collection Michael brings together 13 of his key writings in one place providing an overview not just of his own career but the larger development of the field

**Our Own Time** David R. Roediger, Philip S. Foner, 1989-11-17 Our Own Time retells the story of American labor by focusing on the politics of time and the movements for a shorter working day It argues that the length of the working day has been the central issue for the American labor movement during its most vigorous periods of activity uniting workers along lines of craft gender and ethnicity The authors hold that the workweek is likely again to take on increased significance as workers face the choice between a society based on free time and one based on alienated work and unemployment

(vol. III-IV) *Constructive movements and measures in America* New York (State). Legislature. Joint Legislative Committee to Investigate Seditious Activities, 1920

**Latin America's Turbulent Transitions** Roger Burbach, Michael Fox, Federico Fuentes, 2013-02-14 Over the past few years something remarkable has occurred in Latin America For the first time since the Sandinista Revolution in Nicaragua in the 1980s people within the region have turned toward radical left governments specifically in Venezuela Bolivia and Ecuador Why has this profound shift taken place and how does this new so called Twenty First Century Socialism actually manifest itself What are we to make of the often fraught relationship between the social movements and governments in these countries and do in fact the latter even qualify as socialist in reality These are the bold and critical questions that Latin America s Turbulent Transitions explores The authors provocatively argue that although US hegemony in the region is on the wane the traditional socialist project is also declining and something new is emerging Going beyond simple conceptions of the left the book reveals the true underpinnings of this powerful transformative and yet also complicated and contradictory process

**Brazil's Steel City** Oliver Dinius, 2010-10-01 Brazil s Steel City presents a social history of the National Steel Company CSN Brazil s foremost state owned company and largest industrial enterprise in the mid twentieth century It focuses on the role the steelworkers played in Brazil s social and economic development under the country s import substitution policies from the early 1940s to the 1964 military coup Counter to prevalent interpretations of industrial labor in Latin America where workers

figure above all as victims of capitalist exploitation Dinius shows that CSN workers held strategic power and used it to reshape the company's labor regime extracting impressive wage gains and benefits Dinius argues that these workers and their peers in similarly strategic industries had the power to undermine the state capitalist development model prevalent in the large economies of postwar Latin America *British Books in Print*, 1979 (vol. I-II) *Revolutionary and subversive movements abroad and at home* New York (State). Legislature. Joint Legislative Committee to Investigate Seditious Activities, 1920 [The Fall of the House of Labor](#) David Montgomery, 1987-08-28 By studying the ways in which American industrial workers mobilized concerted action in their own interest the author focuses on the workplace itself examining the codes of conduct developed by different types of workers and the connections between their activity at work and their national origins and neighborhood life David Montgomery Farnam Professor of History at Yale University since 1979 is the author of *Worker's Control in America* CUP 1979 and is co editor of the journal *International Labor and Working Class History* *Solving America's Energy Crisis* Kirkpatrick Sale, James Ridgeway, Joseph Persky, Steve Cummings, James Branscome, John Gaventa, Joseph Huges, 1973-09-01 There are some remarkable parallels between the Watergate scandals and the energy crisis the two biggest front page stories in recent months Both are the product of a politics of fear and intimidation a use of power to obscure public issues with scare words like black outs and Black Panthers while stealing Americans blind In the name of law and order the Watergate tricksters nearly stole the government In the name of supply and demand the energy companies would have us finance their attempt to further monopolize the world's energy resources But more of us are seeing through these kinds of tricks On a national level perhaps television has produced a more sophisticated audience one capable of discerning a second rate used car salesman or a fast buck hoax in an instant That's certainly ironic considering the way TV has become the media for presidential campaigning and the oil companies good guy apologies Of course Southerners should have a slight edge in spotting a fraud After all we've had decades of demagogues and statehouse gangs telling us what was best for the little people Not that we've had a monopoly on such corruption Nationally the worst enemies of democracy and free enterprise consistently prove to be those who claim to be those systems protectors Still the South has a special relation to these latest crises And that's what this issue of our journal is all about There is increasing evidence that the cronies and the cash that made Watergate a Nixon policy came from the southern USA Kirkpatrick Sale explores this thought in his analysis of the emerging political clout of what he calls the southern rim *Strikes, Social Conflict, and the First World War* Leopold H. Haimson, Giulio Sapelli, 1992 [Radical Chains](#) Chris Nineham, 2023-05-26 At a time of almost unimaginable inequality the mainstream still tries to ignore class *Radical Chains* Why Class Matters argues that denial of class is no coincidence but in fact central to the system's survival Exploring largely ignored histories of struggle and challenging the many myths about class today *Radical Chains* puts forward the case that it is time to place class once again at the centre of emancipatory politics **Revolutionary Radicalism: (vol. III-IV) Constructive movements**

**and measures in America** New York (State). Legislature. Joint Legislative Committee to Investigate Seditious Activities,1920    The Railroad Worker ,1923    Consumer's Cooperation ,1925    **U.S. Presidents and Latin American Interventions** Michael Grow,2008 Reveals how Cold War U S presidents intervened in Latin America not as the official argument stated to protect economic interests or ward off perceived national security threats but rather as a way of responding to questions about strength and credibility both globally and at home    **Consumers Cooperation in the United States** Cedric Long,1930
