Sword In Sheath:

Early Celtic Art , For many perhaps most the title Early Celtic Art summons up images of Early Christian stone crosses in Ireland Scotland Wales or Cornwall of Glendalough Iona or Tintagel of the Ardagh Chalice or the Monymusk Reliquary of the great illuminated gospels of Durrow or Lindisfame But as Stuart Piggott notes the consummate works of art produced under the aegis of the early churches in Britain or Ireland in regions Celtic by tradition or language have an ancestry behind them only partly Celtic One strain in an eclectic style was borrowed from the ornament of the northern Germanic world the classical Mediterranean and even the Eastern churches Early Celtic art originating in the fifth century b c in Central Europe was already seven or eight centuries old when it was last traced in the pagan prehistoric world and the transmission of some of its modes and motifs over a further span of centuries into the Christian Middle Ages was an even later phenomenon This volume presents the art of the prehistoric Celtic peoples the first great contribution of the barbarians to European arts It is an art produced in circumstances that the classical world and contemporary societies unhesitatingly recognize as uncivilized Its appearance it has been said by N K Sandars in Prehistoric Art in Europe is perhaps one of the oddest and most unlikely things to have come out of a barbarian continent Its peculiar refinement delicacy and equilibrium are not altogether what one would expect of men who though courageous and not without honor even in the records of their enemies were also savage cruel and often disgusting for the archaeological refuse as well as the reports of Classical antiquity agree in this verdict This book comprises the first major exhibition of Early Celtic Art from its origins and beginnings to its aftermath and was assembled by Stuart Piggott who taught later European prehistory to Honors students in Archaeology Provided by publisher
