**Talking Politics** William A. Gamson, 1992-08-28 Those who analyze public opinion have long contended that the average citizen is incapable of recounting consistently even the most rudimentary facts about current politics that the little the average person does know is taken strictly from what the media report with no critical reflection and that the consequence is a polity that is ill prepared for democratic governance And yet social movements comprised by and large of average citizens have been a prominent feature of the American political scene throughout American history and have experienced a resurgence William Gamson asks how is it that so many people become active in movements if they are so uninterested and badly informed about issues The conclusion he reaches in this book is a striking refutation of the common wisdom about the public s inability to reason about politics

*Public Policy and the Arts: A Comparative Study of Great Britain and Ireland* Ruth-Balandina M. Quinn, 2018-08-20 First published in 1998 this volume considers the subject of arts policy as a subject of public policy making proper in UK and Ireland with a particular focus on theatre as a profession rather than a mere hobby Previous studies have placed the burden of policy improvements on the arts themselves looking at what the arts can do to be worthy of government funding and favourable policy and have seen government actions as if they have a uniform effect This study takes the arts out of the abstract and discusses specific ways that diverse activities with even more diverse needs can be best approached with government policy assessing the strengths
