Tarot The Halo Method:

Tarot HaloEyes,2002 This book contains a wealth of knowledge about how to really make money in business and at the same time have a quality life and not be completely tied to your business 24 hours a day My small business is quite profitable and much to the surprise of most people I do not take incoming telephone calls I do not accept incoming Email and I rarely have to return a phone call I seldom see my two part time employees and I spend exactly 33 seconds a day in the office Just long enough to drop an envelope on the desk look at a few critical numbers that my assistant posts on the wall for me and I m gone before anybody else gets to work Most small business owners are like I was when I first started in business At first you are super energetic and all pumped up about your business and the enthusiasm for what you are doing is contagious People do business with you because of your enthusiasm But eventually you become less and less enthusiastic because you get tired and worn down Then your enthusiasm wanes It becomes difficult to get excited about what you do This book is about taking the most important aspect of your business the constant marketing of your business and putting it on autopilot Creating a system that will bring you a steady flow of new customers Not just any customers but the kind of customers you like Not all customers are the same Some are more fun to work with and those are usually the ones that bring in the most profit This book will teach you how to find a steady stream of the exact type of customer that you are looking for without having to do any personal selling or without having to add sales staff

She and the Starlets may still be healing from the unfortunate and horrible events of that night at the end of last year, but nothing can shake her place as the head of Temperley's elite any longer. The Starlets are nothing if not adept at dealing with traitors, and Siena is her mother's daughter; she knows how to be perfect, and she will not disappoint. There is only one person who could possibly get in her way: Romy, former Starlet, is back, back from a mutually agreed-upon term away in France, and no one is happy about it, least of all herself. She's changed now, though. She's trying harder to be normal, to dress appropriately, to blend in, to keep her head down and keep the secret of what really happened that night safe and hidden. But when your former best friends are untouchable and you've betrayed them, you don't just get to come back, even if you're beginning to think they might not have been your friends in the first place. In *Boarding School Girls*, prequel to Helen Eve's first novel *Stella*, revenge runs deep, old wounds break open, and the past can never, never be outrun.
