*Alterity and the Flint Water Crisis* Mitchell Atkinson III,2023-09-13 This text develops a novel methodology for social investigation into the Flint Michigan USA water crisis by using classical Husserlian phenomenology as its point of departure To develop a proper method in a case like this the author uses as primary data the experiences of the affected community The text investigates philosophically how a water crisis happens as well as the structures of power responsible This book grounds contemporary theories of power in a phenomenology of social experience Key to that grounding is the careful elaboration of subject positions in power structures as partially constitutive of lifeworlds lebensumwelten for consciousness The applied phenomenological tools unravel the central enigma of how a community s concerns and the dictates of power can become so disastrously estranged This text appeals to researchers and students working not just in phenomenology and philosophy but also to those working in the field of environmental humanities and on social justice issues *The Boy's Own Paper* ,1879 *Boys' and Girls' Bookshelf: Book of wonders and curious things* ,1912 **The American Journal of**
