The Challenge Of A Long Life:

Dynamics of Long-Life Assets Stefan N. Grösser, Arcadio Reyes-Lecuona, Göran Granholm, 2017-05-10 This book is published under a CC BY NC 4.0 license. The editors present essential methods and tools to support a holistic approach to the challenge of system upgrades and innovation in the context of high value products and services. The approach presented here is based on three main pillars: an adaptation mechanism based on a broad understanding of system dependencies; efficient use of system knowledge through involvement of actors throughout the process; and technological solutions to enable efficient actor communication and information handling. The book provides readers with a better understanding of the factors that influence decisions and put forward solutions to facilitate the rapid adaptation to changes in the business environment and customer needs through intelligent upgrade interventions. Further, it examines a number of sample cases from various contexts including car manufacturing, utilities, shipping, and the furniture industry. The book offers a valuable resource for both academics and practitioners interested in the upgrading of capital intensive products and services. The work performed in the project *Use It Wisely (UiW)* significantly contributes towards a collaborative way of working. Moreover, it offers comprehensive system modelling to identify business opportunities and develop technical solutions within industrial value networks. The developed *UiW* framework fills a void and offers a great opportunity. The naval construction sector of small passenger vessels, for instance, is one industry that can benefit. Nikitas Nikitakos, Professor at University of the Aegean, Department of Shipping, Trade and Transport, Greece. Long life assets are crucial for both the future competitiveness and sustainability of society. Make wrong choices now and you are locked into a wrong system for a long time. Make the right choices now and society can prosper. This book gives important information about how manufacturers can make right choices. Arnold Tukker, Scientific director, Institute of Environmental Sciences, CML, Leiden University, and senior scientist, TNO.

Wealth for the Ages: Financial Strategies for a Long Life Joseph Libatique, [ITF Research Reports Long-life Surfacing for Roads Field Test Results](#) International Transport Forum, 2017-01-27 This report is the third and final output of a ten-year international research project studying the costs and viability of long-life road pavement surfacings. It describes the results of tests conducted with epoxy asphalt and high-performance cementitious materials (HPCM) on real road sections.

Longer Life and Healthy Aging Yi Zeng, Eileen M. Crimmins, Yves Carrière, Jean-Marie Robine, 2006-08-02 A fundamental issue facing the global community is meeting the challenges of population aging and achieving healthy aging to maintain an active older population and reduce the number of disabled people. The focus of this book is on theoretical issues and empirical findings related to trends and determinants of healthy aging, including factors related to healthy longevity of the oldest old aged 80 and over. The group is the most rapidly increasing elderly sub-population and is most likely to need assistance in daily living in all countries. Chapters include both longitudinal and cross-sectional data from North America, Europe, and Asia in country-specific studies and cross-national comparisons. Part I focuses on the definition, components,

concepts measurements and determinants of healthy aging and discusses the trends and patterns of disability and healthy life expectancy at the macro level Part II addresses individual healthy aging including its biological and socio demographic aspects Part III focuses on issues concerning the family and healthy aging and Part IV explores formal and informal care for healthy aging through governmental policy interventions and community service programs Superior and Extraordinary Health Secrets for a Longer Life (A Comparative Study of Hunza and Blue Zone Populations) Prof. (Dr) Lalith Kumar Dharavath ,2025-10-23 *Aging* Harry R. Moody,Jennifer R. Sasser,2020-07-16 Winner of the 2022 Textbook Academic Authors Association s The McGuffey Longevity Award *Aging Concepts and Controversies* is structured to encourage a style of teaching and learning that goes beyond conveying facts and methods This innovative text focuses on controversies and questions rather than on assimilating facts or creating a single correct view about aging or older people Drawing on their extensive expertise authors Harry R Moody and Jennifer R Sasser first provide an overview of aging in three domains aging over the life course health care and socioeconomic trends Each section then includes data and conceptual frameworks helping students to make sense of the controversies and understand their origin engage in critical thinking and develop their own views The Tenth Edition of this hallmark textbook includes amplified discussions focused on differences diversity structural inequalities and inclusion as well as contemporary issues including climate change and immigration Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides The 100-Year Life Lynda Gratton,Andrew J. Scott,2020-05-28 What will your 100 year life look like A new edition of the international bestseller featuring a new preface Brilliant timely original well written and utterly terrifying Niall Ferguson Does the thought of working for 60 or 70 years fill you with dread Or can you see the potential for a more stimulating future as a result of having so much extra time Many of us have been raised on the traditional notion of a three stage approach to our working lives education followed by work and then retirement But this well established pathway is already beginning to collapse life expectancy is rising final salary pensions are vanishing and increasing numbers of people are juggling multiple careers Whether you are 18 45 or 60 you will need to do things very differently from previous generations and learn to structure your life in completely new ways The 100 Year Life is here to help Drawing on the unique pairing of their experience in psychology and economics Lynda Gratton and Andrew J Scott offer a broad ranging analysis as well as a raft of solutions showing how to rethink your finances your education your career and your relationships and create a fulfilling 100 year life How can you fashion a career and life path that defines you and your values and creates a shifting balance between work and leisure What are the most effective ways of boosting your physical and mental health over a longer and more dynamic lifespan How can you make the most of your intangible assets such as family and friends as you build a productive longer life In a multiple stage life how can you learn to make the transitions that will be so crucial and experiment with new ways of living working and learning Shortlisted for the

FT McKinsey Business Book of the Year Award and featuring a new preface The 100 Year Life is a wake up call that describes what to expect and considers the choices and options that you will face It is also fundamentally a call to action for individuals politicians firms and governments and offers the clearest demonstration that a 100 year life can be a wonderful and inspiring one
