The Christian Existentialist:

The Christian Existentialist Bernhard Häring, 1968-03 Studies in Christian Existentialism John Macquarrie, 1965-01-01 *Christianity and Existentialism* William A. Earle, William Earle, James M. Edie, John Wild, 1963 Heidegger Sartre and the later existentialist philosophers inherited a world it has been said from which God is absent Contemporary philosophy begins in the momentous questioning of the Christian experience by such nineteenth century figures as Nietzsche and Dostoyevsky But if existentialism is in some respects a beginning again it is in other respects linked to the classical world out of which Christianity arose and to certain themes in the writings of ancient and medieval Christians Renewal and innovation converge Addressing themselves to the general reader the three author philosophers consider both the contemporary and the perennial Book jacket Christianity and the Existentialists Carl Michalson, 1956 The chapters included in this volume were delivered in their original form as public lectures in Craig Chapel of Drew University during the academic year 1953-54 They comprise the fifteenth series of lectures to Christian Biography on a foundation established by President and Mrs Ezra Squier Tipple The selection of the participants in the lectureship followed easily upon the choice of the subject The lecturers were assembled under a commission entitled The Challenge of Christian Existentialism The major motive in this title is clear A cultural movement which is exercising so great an influence upon the reformulation of Christian thought deserves to be appraised Preface **Unamuno, Berdyaev, Marcel** C. A. Longhurst, 2021-10-01 This book seeks to examine the mutual interplay between existentialism and Christian belief as seen through the work of three existentialist thinkers who were also committed Christians a Spaniard Miguel de Unamuno a Russian Nikolai Berdyaev and a Frenchman Gabriel Marcel They are compared with each other and with leading non religious existentialists The major themes studied include reason freedom the self belief hope love suffering and immortality **The Christian Existentialist; the Philosophy and Theology of Self-fulfillment in Modern Society** Bernhard Häring, 1968 Personalism and existentialism integrate essential values of our common Christian and humanitarian tradition The personalism that confronts the reader is a dispassionate pondering over the shocking events of our age It tries to discover the human experience It is intended as a challenge and an appeal to modern man to care for the wholeness of the human person and the meaningfulness and integrity of interpersonal relationships **Existentialism and Christian Belief** Milton D. Hunn, 1969 **Existentialism and Christian Zen** A William McVey, 2012-10-26 It is a small book written for readers without an in depth background in philosophy especially existentialism It is an examination of the interface between Christian meditation and Zen Buddhism It is contextual and as of yet I have not included the meditation workshop book that I use when I am giving workshops on Christian Zen meditation Presently it is really in the format of an in depth essay The style is similar to one of your publications that had led me to your site i.e. Emotion and Psyche Marc Jackson I have presented this workshop also on college campuses in the midwest and it was received well It helps greatly clarify the nature of a promising and practical dialogue

between Christian existentialism and the practice of Zen **To Be or Not To Be** David Moffett-Moore,2017-11-27

Monotheism and Existentialism Deborah Casewell,2022-04-14 Existentialism is often seen and at times parodied as the philosophy of individuality authenticity despair and defiance in a godless world However it cannot be understood without reference to religion and in particular the monotheism of Christianity Even the existentialist slogan existence precedes essence is formulated in relation to monotheism This Element will show that monotheism and existentialism are intertwined they react to each other and share content and concerns This Element will set out a genealogy of existentialist thought explore key atheistic and theistic existentialists and argue that there are productive conversations to be had as regards key concepts such as freedom and authenticity relationality and ethics Existential Theology Hue Woodson,2020-09-29

Existential Theology An Introduction offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism Christian humanism and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard To do this Existential Theology attends to the field through the exploration of genres the European traditions in French Russian and German schools of thought counter traditions in liberation feminist and womanist approaches and postmodern traditions located in anthropological political and ethical approaches While the

cultural contexts inform how each of the selected philosopher theologians present genres of existential theology other unique genres are examined in theoretical and philosophical contexts particularly through a selected set of theologians philosophers thinkers and theorists that are not generally categorized theologically By assessing existential theology through how it manifests itself in genres this book brings together lesser known figures well known thinkers and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms

French Existentialism Frederick Temple Kingston,1961-12-15 In this study the author makes a comparison between the two main types of existentialism the Christian and the non Christian The comparison is made on four levels first the common situation second the possibility and means of communication third the chosen methods of philosophy and fourth the attitude and interpretations in relation to similar subjects Although the French existentialists have been greatly influenced by Kierkegaard and by contemporary existentialist thought in Germany Switzerland Italy Spain and the United States the study is limited to the existentialism of contemporary French writers France in the last fifty years has experienced some of the most crucial events of her history and this common setting for both Christian and non Christian man turns to Christianity and another militant atheism It is particularly in France that the split is most clearly made between these two varieties of existentialist thought Dr Kingston handles the issues in a fair and honest way neither concealing his own position nor dealing unfairly with those of whom he is most critical The intelligent English reader lay or academic will find this an excellent introduction to a whole area of modern French life and thought with which he is unlikely to be well acquainted

Muriel Spark, Existentialism and The Art of Death Cairns Craig,2019-02-20 Proposes that Christian existentialism and in particular the work of S ren Kierkegaard helped shape Spark s religious commitments and her artistic innovations Because of the prominence after the Second World War of the atheistic existentialism of Jean Paul Sartre it is often forgotten that existentialism was originally a Christian philosophy shaped by followers of Kierkegaard such as Karl Jaspers and Gabriel Marcel The author traces in Spark s writings both the influence of Kierkegaard and of Spark s resistance to Sartre s co option of existentialism to an atheistic agenda Kierkegaard s analysis of the nature of the aesthetic as a false mode of existence that has to be transcended by the ethical and then by the religious provides a fundamental structure for Spark s satirical analyses of the failings of the modern world
