The Deadly Habit:

Alcohol, Tobacco and Drug Habit Cures Propaganda Department of the Journal of the American Medical Association, 1922

Unlikely Allies in the Academy Karen L. Dace, 2012-05-23 A CHOICE Outstanding Academic Title 2012 Unlikely Allies in the Academy brings the voices of women of Color and White women together for much overdue conversations about race. These well known contributors use narrative to expose their stories which are at times messy and always candid. However the contributors work through the discomfort, confusion and frustration in order to have honest conversations about race and racism. The narratives from Chicanas, Indigenous, Asian American, African American and White women academicians explore our past, present and future, what separates us and how to communicate honestly in an effort to become allies. Chapters discuss the need to interrupt and disrupt the norms of interaction and engagement by allowing for the messiness of discomfort in frank discussion. The dialogues model how to engage in difficult dialogues about race and begin to illuminate the unspoken misunderstandings about how White women and women of Color engage one another. This valuable book offers strategies, ideas and the hope for moving toward true alliances in the academy and to improve race relations. This important resource is for Higher Education administrators, faculty and scholars grappling with the intersectionality of race and gender as they work to understand, study and create more inclusive climates. *The International Psychic Gazette*, 1915

Wubbolding, Jon Carlson, 2012 *Contemporary Issues in Couples Counseling* explores the most difficult issues that people in the helping professions face when treating couples and provides concrete solutions for addressing them effectively. Using the revolutionary choice theory and reality therapy approaches to couples counseling, the book shows clinicians how to combine a relationship based approach with the pragmatism of cognitive behavior therapies. Both experienced and beginning clinicians will find *Contemporary Issues in Couples Counseling* ideal for helping clients focus on the here and now, not the past, and for creating treatment plans that meet clients' individual needs while also addressing the needs of their partners. **Frank**
