Harvesting the Dream Kate Heyhoe,Stanley Hock,2004 The Trincheros treated wine as a business rather than an ego boosting pastime for the already wealthy They understood what customers wanted and unhesitatingly gave it to them As a result wine began to lose its image as the beverage of the elite and became a staple on dinner tables across America At the same time runaway demand for White Zinfandel catapulted Sutter Home to the fourth largest winery in the country But there s far more to the Sutter Home story than just business success This is the rare story of a large and successful business that remains family owned and continues to operate on the basis of professional and personal integrity Genuine generous and humble the Trincheros stand out in glitzy Napa Valley for their philanthropy world class employee programs and long term community involvement *Everything Wine Book* Danny May,1997-01-01 From great bargains to classic vintages how to order or buy the perfect wine Winemaking Richard P. Vine,Ellen M. Harkness,Sally J. Linton,2012-12-06 Over the past several decades consumer interest in the fine vintage wines produced by small boutique vintners across the United States has grown to rival that of many European estates This attention continues to intensify especially for the truly good wines that are reasonably priced Consumers are however unforgiving especially wine enthusiasts Second class wines do not succeed just because a vintner is new The methods and controls essential to vintners in the production and marketing of top grade wines have advanced This second edition of Winemaking has updated and in some cases completely revised the material associated with these disciplines Fine wine is much like other art forms as it is the infinite variability of factors pertaining to the subject that renders it so complex and able to attract buyer s attention Hundreds of different vine varieties are cultivated around the world and no doubt an even greater number of fruit and berry cultivars Andwith the addition of such factors as terroir soil and climate attributes changing every vintage season varied vineyard cultivation and harvesting techniques advancing production technology dynamic markets and overall operational philosophy one can easily understand the

enormous breadth and depth of variation that exists This diversity generates an unimaginable number of different wine possibilities
