Hinduism-The Science of Self Realisation Anupam Srivastava ,2025-01-25 Hinduism The Science of Self Realization is a guide aimed at introducing spirituality and religion to readers especially the youth in India and the Indian diaspora It seeks to demystify the concept of self realization which is often shrouded in confusion and complexity in religious and spiritual discussions The book emphasizes that religion and spirituality are essential for understanding oneself and enhancing day to day life experiences It doesn t claim to be a religious text but focuses on extracting the scientific and logical aspects of Hindu scriptures in a way that modern young readers can grasp The central message is that self realization is within reach for everyone regardless of background or knowledge as it involves invoking innate skills and abilities The author s intent is to simplify and encourage young people especially Hindu youth to explore the spiritual dimension of their personalities

“The” Science of Self-realization A. C. Swami Bhaktivedanta,1978 **The Science of Self-realization** Abhay Charan Bhaktivedanta Swami,1977 **Science of God Realization** Osho,Roy Eugene Davis,2002-11-01 The primary cause of human suffering and unhappiness is an illusional sense of separation between the real Self and God To be enlightened is to know that we are spiritual beings and have accurate comprehensive knowledge of the infinite field of Consciousness and the processes of life **The Science of Self-realization** N.S. Marathey,2002 *A Conceptual-analytic Study of Classical Indian Philosophy of Morals* Rajendra Prasad,2008 Using reconstructive ideas available in classical Indian original works this book makes a departure in the style of modern writings on Indian moral philosophy It presents Indian ethics in an objective secular and wherever necessary critical manner as a systematic down to earth philosophical account of moral values virtues rights and obligations It thereby refutes the claim that Indian philosophy has no ethics as well as the counter claim that it transcends ethics It demonstrates that moral living proves that the individual his society and the world are really real and not only taken to be real for behavioral purposes as the Advaitins hold the self is amoral being a non agent moksa is not a moral value and the Karmic theory because of involving belief in rebirth does not fuarantee that the doer of an action is also the experienter of its results contrary to what is commonly held and Indian ethics can sustain itself even if such notions are dropped Rajendra Prasad calls Indian ethics organismic because along with ethical concerns it also covers issues related to

professions politics administration sex environment etc Therefore in one format it is theoretical and applied normative and metaethical humanistic and non humanistic etc of course within the limits of the then cognitive enquiry
