Truth Reconciliation Evil:

The Politics of Past Evil Daniel Philpott, 2006 A formidable number of societies all over the world have sought to confront past evil This volume features a conversation about reconciliation whose common denominator is theology Theologians philosophers and political scientists explore the meaning of reconciliation for the politics of transition

People's War and Aftermath Nepal Sunil Thapa, Dr. Drew Cottle, 2018-02-01 This book is a study of how and why Nepal after a 10 year long armed insurgency regicide and fundamental political change sought to find a way to achieve peace and security The chosen pathway to peace and reconciliation in Nepal after the decade of war and destruction is examined It has faced delay frustration and neglect after its protracted implementation Politics has determined whatever peace process will be achieved in Nepal

Most Evil Is Done by Good People Who Do Not Know That They Are Not Good Ferd L. Wagner, 2010-05 This book takes the view that Christian truth is the basis for all answers to social issues and that there are not two opposing but equal answers within Christian truth that are equally valid and equally acceptable to God Any so called truth or right that circumvents or undercuts the required sacrifices disciplines and self denial demanded by God in any given social or moral issue ceases to be truth ceases to be right the moment it becomes a force unto itself outside of or independent of the Scripturally required obedience Human history has shown over the millennia that when the letter and spirit of God s laws are not obeyed the truth is abused nations become confused and people are used Many of our political and social issues are rooted in our misplaced belief that tolerance inclusion equal respect for unequal truth and live and let live is the way to greater peace and prosperity They are all wrong Each individual government and nation is judged by their response to Christ The Christian nation or one which ascribes to being one is tasked to set the Christian standard as every nation s point of reference It is the Christian s duty to show that the valid rule of God s law the letter of God s law and the spirit of God s law are superior to any other alternative standard The biggest obstacle to Christianity today is the undisciplined misinformed and unfaithful lifestyles of professing Christians The Church has become so indoctrinated in its aversion to any form of discrimination that it has placed a higher priority on keeping the peace by compromising than by keeping the truth by discriminating By accepting a false peace and rejecting a hard truth that resists compromise it begets neither peace nor truth

Truth in Visual Media Ted Nannicelli, Marguerite La Caze, 2021-10-15 This book investigates the interrelations between aesthetics ethics and politics in a variety of visual media forms ranging across art installations film and television interactive documentaries painting photography social media and videogames An international mix of emerging and established authors with interdisciplinary expertise explores how different ethical questions political implications and aesthetic pleasures arise and shape one another in distinct visual media Investigating themes such as the use of cinema as a medium for ethical and political thought how documentary subjects both conceal and reveal truth the new ethical challenges arising from interactive media and the role of images in responding to political events and trauma this is a groundbreaking

work about the interrelations of aesthetic ethical and political values in visual media **Context, Plurality, and Truth**

Mika Vähäkangas,2020-02-10 The world has shrunk in the processes of globalization and the old ways of actively ignoring plurality in theology are no longer viable Contextual differences between different Christian traditions and theologies are highly visible due to improved communications and migration These differences also witness that this plurality has existed since the very beginning of Christianity Religious studies demonstrate that no religion is pure and hermetically sealed from others but they all are syncretistic in the sense of giving and taking In the world of religions where boundaries are porous and the internal plurality of Christianity is vast there is a temptation either to reject the plurality in a fideistic manner or succumb to relativism The first solution is intellectually hard to defend and relativism is often seen as detrimental to Christian identity This book proposes a way of recognizing the contextual and syncretistic dimensions of pluralism while not surrendering to relativism Christian identity and tradition can be affirmed while staying open to the challenges of pluralism

Mourning in America David W. McIvor,2016-10-20 Recent years have brought public mourning to the heart of American politics as exemplified by the spread and power of the Black Lives Matter movement which has gained force through its identification of pervasive social injustices with individual losses The deaths of Sandra Bland Michael Brown Freddie Gray Trayvon Martin Tamir Rice Walter Scott and so many others have brought private grief into the public sphere The rhetoric and iconography of mourning has been noteworthy in Black Lives Matter protests but David W McIvor believes that we have paid too little attention to the nature of social mourning its relationship to private grief its practices and its pathologies and democratic possibilities In Mourning in America McIvor addresses significant and urgent questions about how citizens can mourn traumatic events and enduring injustices in their communities McIvor offers a framework for analyzing the politics of mourning drawing from psychoanalysis Greek tragedy and scholarly discourses on truth and reconciliation Mourning in America connects these literatures to ongoing activism surrounding racial injustice and it contextualizes Black Lives Matter in the broader politics of grief and recognition McIvor also examines recent grassroots organized truth and reconciliation processes such as the Greensboro Truth and Reconciliation Commission 2004 2006 which provided a public examination of the Greensboro Massacre of 1979 a deadly incident involving local members of the Communist Workers Party and the Ku Klux Klan Truth v. Justice Robert I. Rotberg,Dennis F. Thompson,2010-07-01 The truth commission is an increasingly common fixture of newly democratic states with repressive or strife ridden pasts From South Africa to Haiti truth commissions are at work with varying degrees of support and success To many they are the best or only way to achieve a full accounting of crimes committed against fellow citizens and to prevent future conflict Others question whether a restorative justice that sets the guilty free that cleanses society by words alone can deter future abuses and allow victims and their families to heal Here leading philosophers lawyers social scientists and activists representing several perspectives look at the process of truth commissioning in general and in post apartheid South Africa They ask whether the truth commission as a

method of seeking justice after conflict is fair moral and effective in bringing about reconciliation The authors weigh the virtues and failings of truth commissions especially the South African Truth and Reconciliation Commission in their attempt to provide restorative rather than retributive justice They examine among other issues the use of reparations as social policy and the granting of amnesty in exchange for testimony Most of the contributors praise South Africa s decision to trade due process for the kinds of truth that permit closure But they are skeptical that such revelations produce reconciliation particularly in societies that remain divided after a compromise peace with no single victor as in El Salvador Ultimately though they find the truth commission to be a worthy if imperfect instrument for societies seeking to say never again with confidence At a time when truth commissions have been proposed for Bosnia Kosovo Cyprus East Timor Cambodia Nigeria Palestine and elsewhere the authors conclusion that restorative justice provides positive gains could not be more important In addition to the editors the contributors are Amy Gutmann Rajeev Bhargava Elizabeth Kiss David A Crocker Andr du Toit Alex Boraine Dumisa Ntsebeza Lisa Kois Ronald C Slye Kent Greenawalt Sanford Levinson Martha Minow Charles S Maier Charles Villa Vicencio and Wilhelm Verwoerd

Ambiguities of Witnessing Mark Sanders,2007 The first book to explore the complex relationship between law and literature in testimony to crimes of apartheid before South Africa s Truth and Reconciliation Commission *Ambiguities of Witnessing* closely analyzes key individual testimonies Whereas most existing books on this and other truth commissions are weighed down by abstract legal and philosophical discussion this book does justice to witnesses public testimony in a fascinating and theoretically sophisticated investigation of questions of human rights mourning forgiveness and reparation Framed by the personal *Ambiguities of Witnessing* also meditates on what it means for the writer to respond to this epochal event in the history of post apartheid South Africa
