Understanding Reality Nicholas Rescher, 2018-08-15 The book sees to show that the present discussion so unfolds as to show that ultimately Reality's inherent impetus to lawful order serves also to account for its existence The ultimate explanation of its order is as something that also provides for its reason for being Step by step a train of thought unfolds to indicate that Reality both exists and has the nature it does for good reason and specifically because this is somehow for the best Such an approach goes back to the Platonism of classical antiquity Many difficulties lie in the way of its acceptance But it is in the final analysis the theory that works here takes the form of a Neo Platonism of sorts Or if reality has any rational explanation at all it is one that will have to proceed along these lines based upon rationality itself An underlying theme that runs throughout the present elaboration of metaphysics is the dialectic of interaction between descriptive facts on the one hand and normative ideals on the other On such a view it is a salient factor in metaphysics that reality as such is descriptively constituted as a potentially perfect system of knowledge even though we imperfect beings cannot get a more than an imperfectly secure cognitive grip on it Accordingly we can never hope to surmount the contrast between The metaphysical ideal of a perfected system of knowledge The imperfect realization of actuality that we can ever hope to achieve in practice

Dialectical Approach to

Understanding Reality Habte Micael, 2024-02-21 To achieve a new and better order of society the oppressed society need not allow their oppressors to represent them in the nation When you realize the members of the ruling class are putting down and crushing the people through parliament it is the real essence of the evidence that the dictatorship character represses very hard in the parliament Dictatorship is a rule based directly upon force and unrestricted by any laws The role of the oppressed societies need to be organized for the necessity of revolution to defeat dictatorship ideology as it can never be solved by reformation according the revolutionary theory What we achieve inwardly will change outer reality Most people are not achieving their dreams because they are living in their fears Achievement is the product of conscious decisions and action that can challenge the tragedy of life Action clarity and dare create the achievement of the required goal Teach about what matters Our job is to excite students and adult learners about the world to help them see the role that they can play in making society more equal and more just to express their ideas powerfully to see that social and historical materialism studies is about real people lives and about their relationship to each other and to nature to be enlightened No matter how

long the night the day is sure to come Transformation is only valid if it is carried out with the people one hundred percent Liberation is like a childbirth and a painful one The person who emerges is a new person no longer oppressor or oppressed but a person in the process of achieving freedom is only the oppressed who by freeing themselves can free their oppressors
