War Dance:

War Dance William K. Powers,1993-01-01 Compiled from a thirty year study this volume provides a look at the history and culture of the Plains Indians

Ethnomusicology of the Flathead Indians Alan Merriam,2017-09-29 All people in no matter what culture must be able to place their music firmly in the context of the totality of their beliefs experiences and activities for without such ties music cannot exist This means that there must be a body of theory connected with any music system not necessarily a theory of the structure of music sound although that may be present as well but rather a theory of what music is what it does and how it is coordinated with the total environment both natural and cultural in which human beings move The Flathead Indians of Western Montana just over 26 000 in number as of the 2000 census inhabit a reservation consisting of 632 516 acres of land in the Jocko and Flathead Valleys and the Camas Prairie country which lie roughly between Evaro and Kalispell Montana The reservation is bounded on the east by the Mission Range on the west by the Cabinet National Forest on the south by the Lolo National Forest and on the north by an arbitrary line approximately bisecting Flathead Lake about twenty four miles south of Kalispell The area is one of the richest agricultural regions in Montana and fish and game are abundant The Flathead are engaged in stocking timbering and various agricultural enterprises For the Flathead the most important single fact about music and its relationship to the total world is its origin in the supernatural sphere All true and proper songs particularly in the past owe their origin to a variety of contacts experienced by humans with beings which though a part of this world are superhuman and the source of both individual and tribal powers and skills Thus a sharp distinction is drawn by the Flathead between what they call make up and all other songs Merriam s pioneering work in the relationship of ethnography and musicology remains a primary source in this field in anthropology

The Power of Kiowa Song Luke E. Lassiter,1998-09-01 Many Kiowas believe that song is a gift from God Its power argues Luke E Lassiter rests in the many ways that community members hear understand and feel it Song has power As I begin to understand what this means for my mentors I am just beginning to understand what this means in my life They are not just singers They are vehicles for something greater than all of us Indeed I now understand that I am not just a singer But I will sing until I die As a boy Lassiter had an early fascination with pow wows This interest eventually went from a hobby to a passion As Lassiter made Kiowa friends who taught him to sing and traveled the pow wow circuit serving many times as a head singer he began to investigate and write about the pow wow as an experiential encounter with song The Power of Kiowa Song shows how song is interpreted created and used by individuals how it is negotiated through the context of an event and how it emerges as a powerfully unique and specific public expression The Power of Kiowa Song presents a collaborative

community wide dialogue about the experience of song Using conversations with Kiowa friends as a frame Lassiter seeks to describe the entire experience of song rather than to analyze it solely from a distance Lassiter s Kiowa consultants were extremely active in the writing of the book re explaining concepts that seemed difficult to grasp and discussing the organization and content of the work In a text that is engaging and easily read Lassiter has combined experiential narrative with ethnological theory to create a new form of collaborative ethnography that makes anthropology accessible to everyone This book is designed for anyone interested in Native American studies or anthropology and it also serves as a resource written by and for the Kiowa themselves Hear the Power of Kiowa Song **Guide to the Turf** Ruff William,1904

The North American Indian: The Tiwa. The Keres Edward S. Curtis,1926 A comprehensive and permanent record of all the important tribes of the United States and Alaska that still retain to a considerable degree their primitive customs and traditions The value of such a work in great measure will lie in the breadth of its treatment in its wealth of illustration and in the fact that it represents the result of personal study of a people who are rapidly losing the traces of their aboriginal character and who are destined ultimately to become assimilated with the superior race It has been the aim to picture all features of the Indian life and environment types of the young and the old with their habitations industries ceremonies games and everyday customs Though the treatment accorded the Indians by those who lay claim to civilization and Christianity has in many cases been worse than criminal a rehearsal of these wrongs does not properly find a place here General introduction

Songprints Judith Vander,1988 Perspectives on the twentieth century lives of Shoshone women musicians The musical lives of Native American women have experienced a century of cultural change and constancy Judith Vander takes readers to the Shoshone of Wyoming s Wind River Reservation to meet five generations of Shoshone women Vander s conversations with Emily Angelina Alberta Helene and Lenore capture their distinct personalities as they share their thoughts feelings and attitudes toward their music Vander transcribes and analyzes seventy five songs that the women sing Each woman possesses a unique songprint a repertoire distinctive to her culture age and personality As Vander shows the context of Shoshone social and religious ceremonies offers insights into the rise of the Native American Church the emergence and popularity of the
