Zenith A Level French:

The French Exception Emmanuel Godin, Tony Chafer, 2006-01-01 The notion of French exceptionalism is deeply embedded in the nation's self image and in a range of political and academic discourses. Recently the debate about whether France really is exceptional has acquired a critical edge. Against the background of introspection about the nature of national identity, some proclaim normalisation and the end of French exceptionalism while others point out to the continuing evidence that France remains distinctive at a number of levels from popular culture to public policy. This book explores the notion of French exceptionalism, places it in its European context, examines its history and evaluates its continuing relevance in a range of fields from politics and public policy to popular culture and sport. **French-English** Ebenezer Clifton, 1923

Aspects of French Immersion at the Primary and Secondary Levels Frances C. Morrison, Ontario. Ministry of Education, 1986 The four clauses of the 1985 contract with the Ministry of Education dealt with: a) the French proficiency of immersion students in the K-7 cohort at the Grade 10 level; b) the assessment of the French proficiency of those who had remained in immersion only to the end of Grade 8; c) the tracing of K-7 students after their completion of Grades 12 or 13; and d) students in the Ottawa and Carleton Boards who transfer from immersion to the English program before the end of Grade 3. The evaluation is based on responses to questionnaires sent to parents and teachers involved in the program and interviews with principals. *Report of the Superintendent ...
