***The Voices*** Josie Lugo, Leonora Carmichael didn't think anything of her move to Summerdon Montana It was simply a new place to live another place to need therapy for the voices in her head Until one day when she doesn't adhere to the threats to leave town and she's kidnapped mistreated and interrogated Her rescuer The same male whose voice she's been hearing in her head her whole life Instead of a psychotic break Leo learns she's part of the supernatural world Now she has to figure out how to be a human in a shifter relationship handle a human mother who knows nothing of paranormal creatures ignore the jealous tantrums of an ex lover and how to be brave against the very real nightmares from her time in a cell

***Hunger in Groups*** Richard W. Seaton, 1962 A test of underfeeding in the Arctic during the summer of 1960 is presented The experiment used two replicated cycles each consisting of a five day control phase followed by two five day experimental phases during which subjects trekked over the Greenland Icecap man hauling sleds Variables included eight sub groups paired into five man teams two feeding conditions and two work conditions Reliable confirmation of previous reports was provided for some phenomenological effects e.g weakness sensitivity to minor task increments and concern about health and hygiene Alleged sensitivity to cold was unconfirmed and sexuality appeared to be a concomitant of the general stress situation rather than a specific correlate of hunger That time passes more slowly for hungry men also was not supported by subjects reports Social effects of hunger on groups included reduced talk and humor and increased complaining about minor strains Contrast between effects of external demand stress and hunger deprivation stress was notable
