**Strategic Operations Management** Steve Brown, John Bessant, Fu Jia, 2018-07-17 Strategic Operations Management 4th Edition shows how vital it is to have world class operations management in any organisation In the past where organisations tended to be more hierarchical than today the words strategy and operations were almost mutually exclusive In today s highly competitive environment though strategic operations capabilities must be in place for organisations to provide goods and services that meet and exceed customer requirements Key issues such as cost speed quality flexibility and constant innovation are all part of strategic operations However achieving such capabilities does not come by chance instead a range of factors need to be put in place This new edition pays equal attention to manufacturing and service sectors It includes numerous references to and discusses major changes taking place in the business world including 3 D printing virtual organisations Cloud Big Data and the Internet of Things Servitization global markets ongoing innovation and managing within complex supply networks Cases are included from a range of settings across the globe Students taking MBA MSc and MBM classes on operations management advanced operations management and strategic operations management will find this textbook fulfills all their requirements whilst advanced undergraduate classes in these areas will also find the book an essential read

**Strategic Operations Management** Firdoos Quraishi, 2014-11-15 Operations management is an area of management concerned with overseeing designing and controlling the process of production and redesigning business operations in the production of goods or services It involves the responsibility of ensuring that business operations are efficient in terms of using as few resources as needed and effective in terms of meeting customer requirements It is concerned with managing the process that converts inputs in the forms of raw materials labor and energy into outputs in the form of goods and or services The relationship of operations management to senior management in commercial contexts can be compared to the relationship of line officers to highest level senior officers in military science The highest level officers shape the strategy and revise it over time while the line officers make tactical decisions in support of carrying out the strategy In business as in military affairs the boundaries between levels are not always distinct tactical information dynamically informs strategy and individual people often move between roles over time
