A Village Boy's Journey Prof Upendra Chowdhary, 2025-03-03
The idea of writing a book which would tell the stories from my life beginning from a village in India to becoming a Professor of Neurosurgery with the basic MBBS degree and a Master's degree in surgery obtained in Agra India and then having higher neurosurgical training at elite neurosurgical departments in England and attaining Fellowships of Royal Colleges of Surgeons qualifications to become accredited in the UK as a fully trained neurosurgeon The journey till here needed considerable sacrifice and overcoming several obstacles such as leaving my home in India as well as my parents grandfather brothers and sisters and close friends It also required ingenuity adapting to different culture climate and working environment after leaving the cosy life as a child among my well to do extended family My aim in writing stories from my life as a memoir shows that with will power persistence knowledge ingenuity and moral integrity how a village boy from India achieved a life long ambition to become a Professor of Neurosurgery and helped thousands of patients and has continued even in 2023 at the age of 82 years to work towards helping injured patients due to accident or due to clinical negligence to get adequate monetary compensation through English justice system which has many flaws and limitations still in 2023 I also believe that as my life story begins at the era of Quit India movement of 1942 and continues through major socio economic changes during the post independence period and then further through my life journey in England Ireland Saudi Arabia it will be useful to other people to read about my experiences In these books I have also depicted the changes in Indian economic structural and societal changes that has happened in previous 80 years There are numerous stories of innovations in saving lives and limbs by learning and use of evolving modern neurosurgical techniques and technology where I have not only described the life changing events of several neurosurgical patients with use of modern technique and technology in various divergent countries but have also depicted the social economic and cultural aspect of life in these diverse countries and the courage and fortitude of numerous of my patients when faced with life changing diseases

Butterflies Will Burn Federico Garza Carvajal, 2003-12-01
As Spain consolidated its Empire in the sixteenth and seventeenth centuries discourses about the perfect Spanish man or Vir went hand in hand with discourses about another kind of man one who engaged in the abominable crime and sin against

nature sodomy In both Spain and Mexico sodomy came to rank second only to heresy as a cause for prosecution and hundreds of sodomites were tortured garroted or burned alive for violating Spanish ideals of manliness Yet in reality as Federico Garza Carvajal argues in this groundbreaking book the prosecution of sodomites had little to do with issues of gender and was much more a concomitant of empire building and the need to justify political and economic domination of subject peoples Drawing on previously unpublished records of some three hundred sodomy trials conducted in Spain and Mexico between 1561 and 1699 Garza Carvajal examines the sodomy discourses that emerged in Andaluc a seat of Spain s colonial apparatus and in the viceroyalty of New Spain Mexico its first and largest American colony From these discourses he convincingly demonstrates that the concept of sodomy more than the actual practice was crucial to the Iberian colonizing program Because sodomy opposed the ideal of Vir and the Spanish nationhood with which it was intimately associated the prosecution of sodomy justified Spain s domination of foreigners many of whom were represented as sodomites in the peninsula and of Indios in Mexico a totally subject people depicted as effeminate and prone to sodomitical acts cannibalism and inebriation
