Region and Nation James Brennan, 2003-01-30 The study of twentieth century Argentine history is undergoing a radical transformation Both Argentine and U S historians of Argentina are recasting the great debates in the historiography by challenging the Buenos Aires centered focus of most of the existing historical scholarship and offering a new perspective on the country s modern history Argentina s supposed exceptionalism is being challenged by these historians The persistence of political clientelism and oligarchic rule enclave economies and pre capitalist social relations the role of traditional institutions such as the Church and family intense class conflict and working class militancy all approximate Argentina closer to the Latin American experience than the previous historiography would suggest This book is a unique collaboration between Argentine and U S historians of this other Argentina *The Fortune Sellers* William A. Sherden, 1997-10-28 An ambitious intelligent and very readable guide to understanding our present and our future Harry Beckwith author of *Selling the Invisible* No one can foretell the future Or can they There are many who purport to and they are making a fortune From meteorologists to investment advisers prognosticating professionals are part of a multibillion dollar industry No longer merely fortunetellers they are fortune sellers offering us a commodity we re more than eager to buy the future In this piercing and provocative expose business consultant and forecasting expert William Sherden casts an unblinking eye on the booming business of predicting the future separating fact from fallacy to show us not only how best to use the forecasts we re given but how to select the nuggets of valuable future advice from amongst the 200 billion worth of mostly erroneous future predictions put forth each year *Pigeon River Country* Dale Clarke Franz, 2013-02-13 The long awaited new edition of a classic offers memories myths and meanings of the largest contiguous piece of wild land in Michigan s Lower Peninsula This updated edition explores more deeply why and how the outdoors moves and compels us It s a book about mice who sing elk who wear collars deer who kiss and birds who could dictate their compositions to Mozart It s about the human species interacting in generous and sometimes misguided ways with the rest of life It s about men trying to ripen pinecones into pineapples and women taking better aim with a revolver than expected It s about poetry from Mary Oliver Lao Tzu and Theodore Roethke and seeing hawks dive in a night sky or feeling oil geologists shake the earth below It s about finding fish dead in the river by the thousands and crouching behind a stump to watch beaver build a dwelling While this book considers life beyond the boundaries of Pigeon River Country it is steeped in the specifics of a place that lives mostly on its own instead of human terms The Pigeon River Country is a remote northern forest ecologically distinct from most of the United States Laced with waterways it has a storied past Dale Clarke Franz has collected personal accounts from various people intrigued with the Pigeon River Country including loggers conservationists mill workers campers even the young Ernest Hemingway who said he loved the forest better than anything in the world There are comprehensive discussions of the area s flora and fauna
