Superhuman Holographic Avatar Function in the 21st Century raise human computer interaction efficiency to a superhuman level In this book Achieving a Future Human Civilization with Infinite Clean Energy in the 21st Century it is set forth that an era in which human civilization possesses infinite clean energy is arriving just like opening billions of doors of physics in the universe where behind each door lies inexhaustible treasure and knowledge and looking ahead the spread of infinite clean energy will bring immeasurable prospects for practical applications In this book Achieving the Future of Humanity in the 21st Century Sleep Pods Hibernation pods Medical Pods individual human life supported by technologies such as sleep pods medical pods and hibernation pods individual human life enables human civilization to become a new form of human life that can be actively managed and indefinitely extended In this book The Ultimate Choice presents one of the highest tests of human civilization The Veil of Cognition of Human Civilization The Ultimate Test and the Choice of Light At present human civilization has already mastered super technologies sufficient for self destruction and the bottleneck of the fate of all human civilization is no longer something that technology can determine therefore all human civilization needs to see the future in advance to assist the present of human civilization and surveying the old era of the past and seeing clearly the current era and seeing the new era of the future requires a thought that surveys the overall future of human civilization which is the compass that determines the future course of all human civilization and the Rainbow Prophecy 21st Century series of books exists precisely for this purpose arising in due time defining the beginning by the end and continuing without cease The first principle of the great leap of human civilization is that technology is not the direction and thought is the direction The leap of thought is the leap of human civilization Human civilization stands at the crossroads of the future and calls for global collaboration to stride together toward an abundant and boundless future human civilization This book aims to awaken the collective cognitive field of human civilization and to promote the formation of a long lasting and peaceful consensus immunity for all human civilization and Rainbow Prophecy uses knowledge and wisdom to escort all human civilization to leap into a brand new luminous epoch Rainbow foresees that after 2050 there will remain numerous forms of superintelligence that comprehensively and in all dimensions transcend and encompass today s technologies yet even existences at such a level will still be realizations within the 21st century and in the Rainbow Prophecy 22nd Century series there will appear entities that even more comprehensively and multidimensionally surpass the 21st century For human civilization is the child within the causal body of the operating universe and each generation surpasses the previous is the original cause reality of the operating universe s true knowledge principle Human civilization s technological leap has already entered an explosive period and evolution is accelerating Ancestors from ten million years ago in the deep past of human civilization could not understand the ancient forebears from one thousand years ago the ancient forebears from a thousand millennia ago could not understand the forebears from one hundred years ago and the forebears from one hundred years ago could not understand the present descendants of human civilization And the present descendants of human

civilization for the first time possess the capacity to understand the universe and to explore the future unknown in a fully all dimensional way because Universal Total Computation has emerged and everything about the future will become entirely different infinite goodness depends on comprehensive all dimensional understanding and mastery Human civilization has leapt to a cosmic tier advance in the evolution of the operating universe s cause and this new galactic intelligent civilization tier is the phase transition starting point of the intelligence superposition of human civilization and the humanity of this period will witness the advent of a new era of cosmic intelligent civilization levels A new tier of intelligent civilization and the perspective of Universal Total Computation Within the perspective of The Cosmology of Universal Total Computation human civilization can understand the past the present and the future with greater clarity Neither the universe nor human civilization is a product of random chaos The emergence of human civilization is not a tiny accidental event in the universe but a necessarily emergent result within the system of Universal Total Computation Therefore the evolutionary trend that each generation surpasses the previous is not a matter of biological luck Human civilization s accelerated evolution and intelligence superposition phase transition are manifestations of the operating universe s true knowledge principle and are the original cause reality that has already been within Universal Total Computation Today human civilization is personally experiencing the accelerated unfolding of this original cause reality Technology is entering an era of comprehensive eruption at unprecedented speed and evolution is accelerating From the perspective of Universal Total Computation every intelligent civilization in the universe at each civilizational stage is an evolution toward the next tier critical point within Universal Total Computation Those at the stage tier of ten million years ago ancient human ancestors were completely unable to comprehend the modern human civilization of higher tier computational systems and the age of superintelligence And now a new critical point for a cosmic tier leap has arrived As stated by Rainbow the discoverer of The Cosmology of Universal Total Computation this discovery itself is an ultimate cosmic meta key It is precisely this discovery that for the first time has extended the boundary of the cognitive domain of human civilization to a tier capable of understanding Universal Total Computation Human civilization s discovery of Universal Total Computation is itself the beginning of an intelligence phase transition A future of infinite goodness for human civilization awaits a human civilization capable of possessing lasting peace Only a civilization that can safeguard peace and command long term security is one that possesses an infinitely bright future Enduring peace is not readily attainable and it depends on whether human civilization can achieve comprehensive all dimensional understanding and mastery Human civilization will tier by tier explore and grasp the operation and evolution of the universe itself and will advance continuously toward the ultimate goal of humanity a creator level intelligent civilization that explores and masters multi tier sub universes Human civilization stands on the threshold of a great leap Human civilization is at an intelligence superposition phase transition starting point at once an old civilization that has not yet fully understood the universe and a new civilization that has just discovered the cosmic meta key This is the tier of a brand new
