Supply- and demand-side factors affecting maize and cowpea varietal turnover and quality seed use: Mixed-method evidence from northern Nigeria Ragasa, Catherine,Umar, Sulaiman,Sani, Rabiuh Mohammed,Onyibe, Johnson E.,Omoigui, Lucky,Fasoranti, Adetunji,Nwagboso, Chibuso,Bamiwuye, Temilolu,Takeshima, Hiroyuki,Andam, Kwaw S.,2024-12-10 This study provides an integrated assessment of the seed system for maize and cowpea two of the most important crops in Nigeria We analyze the various factors influencing seed supply and demand and present different measures of capacity and incentive of multiple actors along the seed value chain We also present metrics on adoption of improved varieties and quality seed use given the complexity of these concepts and persistent challenges in measuring them in a survey context At the national level the 2015 to 2018 Living Standards Measurement Survey data show that the adoption rate of improved varieties was 16 percent of maize area and 6 percent of cowpea area with 9 percent of maize farmers and 3 percent of cowpea farmers reporting certified seed use of improved varieties Data from household surveys conducted in 2022 show that in Bauchi and Kaduna states with relatively high maize and cowpea production levels the adoption rate of quality seeds of improved varieties was 10 percent of cowpea land area and 25 percent of maize land area In addition the improved varieties in the cowpea and maize plots were old the area weighted varietal age in cowpea farms was 12 years and in maize farms 13 years The most popular cowpea variety was Kananado likely matching released variety SAMPEA 9 or SAMPEA 11 released in 2005 and 2009 respectively and the most popular maize variety was SAMMAZ 15 released in 2008 Newer varieties have not caught up in popularity Different stages of the seed value chain face major bottlenecks Two major themes emerged as barriers and drivers of adoption of newer improved varieties and quality seed 1 Seed supplies were limited especially breeder and foundation seeds implying that Nigeria s seed system needs to increase coordination funding and capacity for early generation seed production and management and 2 new varieties were not promoted to farmers who therefore lacked exposure to the seeds implying that both public and private sectors need to invest more in the promotion of these varieties and increase exposure and testing among farmers There is also a need to look at the breeding and offerings of newer improved varieties Some newer varieties do not consistently and comprehensively outperform older bred varieties in field

trials and farm demonstrations some older bred varieties remain attractive and popular to farmers Beyond seeds several contextual factors disabled farmers and seed actors capacity and incentive to expand production and adopt improved varieties Security issues poor soil conditions and high fertilizer transportation irrigation and diesel costs were some of the major disablers in the seed system that must be addressed **Bulletin** ,1920 **Industrial Chemistry** Allen Rogers,1920

Seinfeld,Marta Matamala-Gomez,2024-10-03 Immersive virtual reality technology has been developing extremely dynamically in the last decade One of the reasons is the impressive progress in 3D graphics and the increasing accessibility of hardware with sufficient computational power to smoothly render high quality 3D environments Virtual reality overwhelms the user by replacing the physical world with a computer generated 3D scenario Its power lies in embodied complex and vivid scenarios rich in context and dynamic engagement of the sensorimotor system which provokes more naturalistic behavioural and physiological responses than abstract stimuli Congruent multisensory stimulation builds virtual experience and makes us forget about the real world Strong presence and embodiment illusions can cause deep cognitive affective and behavioural changes leading to enhanced learning perspective taking and treatments Some types of sensory input have received much more attention than others This includes mainly visual and auditory cues but also to some extent nociception and touch However the human sensory system is much richer and more complex and includes many other senses such as smell and taste but also thermoception interoception equilibrioception and others Most VR experiences are built on rich audiovisual cues since these two modalities allow us to perceive the virtual world and interact with it For example touch although extremely important is often represented in a reductionist form and other modalities such as the sense of smell or thermoception are completely ignored **Proceedings of the 2nd International Joint Conference on Hospitality and Tourism, IJCHT 2022, 6-7 October 2022, Singaraja, Bali, Indonesia** I Nyoman Saputra Wahyu Wijaya,Ni Ketut

(*Psychology Revivals*) David Premack,2014-01-27 What is language and what is the nature of the intelligence that can acquire
it This volume originally published in 1976 describes 10 years of research devoted to these questions The author describes
his programmatic research of decomposing language into atomic constituents designing and applying training programs for
teaching these to chimpanzees and for teaching chimps major human ontological categories as well as for interrogative
declarative and imperative sentence forms The volume details the progress from teaching apes simple predicates such as
same different to more complex predicates such as if then and the success of the program led to the following questions
directly related to intelligence What made the training program effective What is the cognitive equipment of the species
which enables it to learn language What does this tell us about human intelligence The answers were suggested in terms of
conceptual structure representational capacity memory and the ability to handle second order relations The results of this
experimentation which resulted in synonymy in some animals shed light not only on the nature of language but the nature of
intelligence as well One of the earliest ape language and intelligence studies today this classic can be read and enjoyed again

Taste Color: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels enthraling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. Taste Color : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Taste Color : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
