According to the U S Census Bureau there are approximately 26 million veterans in the United States In recent years more than 1 6 million U S servicemen and women had tours of duty in Afghanistan and Iraq When not on active duty more than 20 percent of these vets do not have health care coverage and many more are unaware of the hundreds of benefits to which they have access As a result many are suffering financial strain during and after deployment This is a discouraging statistic because the federal and state governments as well as private foundations have scholarships and military discounts available only to veterans There are billions of dollars in aid available waiting to be claimed but the problem is finding and properly applying for these programs This groundbreaking new book will provide help to those heroic Americans who have answered our government s call to duty You will find all contact information and Web sites included making it easy to apply for the benefits you are entitled to while meeting the requirements of the Department of Veterans Affairs and other organizations and private institutions Here is a small sampling of what you will learn about the GI Bill scholarships grants companies that offer military discounts GI Bill eligibility details of VA loans National Guard GI Bill benefits after service veterans employment education and training programs VA guaranteed home loan GI Bill Apprenticeship and OJT Program Vocational Rehabilitation and Employment VR E Reserve Education Assistance Program REAP disability compensation employment and training frequently asked questions asking for local discounts GI Bill education programs homeless veterans programs state veteran benefits directory survivor benefits VA appeals process VA benefits explained VA hospitals and facilities veteran disability compensation veterans health care veterans life insurance veterans pension programs vocational rehabilitation burial and memorial benefits If you are in the military now a veteran or a military family member you will find this resource invaluable Atlantic Publishing is a small independent publishing company based in Ocala Florida Founded over twenty years ago in the company president e tm s garage Atlantic Publishing has grown to become a renowned resource for non fiction books Today over 450 titles are in print covering subjects such as small business healthy living management finance careers and real estate Atlantic Publishing prides itself on producing award winning high quality manuals that give readers up to date pertinent information real world examples and case studies with expert advice Every book has resources contact information and web sites of the products or companies discussed

A Fragment from the Life of Three Friends (Fantasy and Horror Classics) E. T. A. Hoffmann,2015-10-21 This early work by E T A Hoffmann was originally published in 1818 Born in K nigsberg East Prussia in 1776 Hoffmann s family were all jurists and during his youth he was initially encouraged to pursue a career in law However in his late teens Hoffman became increasingly interested in literature and philosophy and spent much of his time reading German classicists and attending lectures by amongst others Immanuel Kant Hoffman went on to produce a great range of both literary and musical works Probably Hoffman s most well known story produced in 1816

is The Nutcracker and the Mouse King due to the fact that some seventy six years later it inspired Tchaikovsky's ballet The Nutcracker In the same vein his story The Sandman provided both the inspiration for L o Delibes's ballet Copp lia and the basis for a highly influential essay by Sigmund Freud called The Uncanny Indeed Freud referred to Hoffman as the unrivalled master of the uncanny in literature Many of the earliest books particularly those dating back to the 1900 s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions

Big Gun Monitors Ian Buxton,2008-03-30 In the history of naval warfare probably no type of ship has provided more firepower per ton than the monitor indeed they were little more than a huge gun mounting fitted on a simple self propelled raft Designed and built rapidly to fulfil an urgent need for heavy shore bombardment during World War I they were top secret in conception and largely forgotten when the short lived requirement was over Nevertheless they were important ships which played a significant role in many Great War campaigns and drove many of the advances in long range gunnery later applied to the battle fleet Indeed their value was rediscovered during the Second World War when a final class was built Monitors were largely ignored by naval historians until Ian Buxton produced the first edition of this book in 1978 Although published privately this became an established classic and copies of the first edition are now almost unobtainable so this new edition will be welcomed by many It has been completely revised extended and redesigned to a generous large format which allows material deleted from the original edition for lack of space to be restored
