The Collected Works of J. Krishnamurti (Vol - I) Jiddu Krishnamurti, 2007-01-01 Until the end of his life at the age of ninety Krishnamurti the world teacher traveled the world speaking as a private person The rejection of all spiritual and psychological authority including his own is a fundamental theme A major concern is the social structure and how it conditions the individual The emphasis in his talks and writings is on the psychological barriers that prevent clarity of perception Because his subject is all embracing the Collected Works which are in 18 Volumes are of compelling interest Within his talks in any one year Krishnamurti was not able to cover the whole range of his vision but broad amplifications of particular themes are found throughout these volumes In them he lays the foundations of many of the concepts he used in later years The Collected Works contain Krishnamurti s previously published talks discussions answers to specific questions and writings for the years 1933 through 1967 They are an authentic record of his teachings taken from transcripts of verbatim shorthand reports and tape recordings Jiddu Krishnamurti was born in 1895 of Brahmin Parents in South India At the age of fourteen he was proclaimed the coming World Teacher by Annie Besant then President of the Theosophical Society an international organization that emphasized the unity of world religions Mrs Besant adopted the boy and took him to England where he was educated and prepared for his coming role In 1911 a new worldwide organization was formed with Krishnamurti as its head solely to prepare its members for his advent as World Teacher In 1929 after many years of questioning himself and the destiny imposed upon him Krishnamurti disbanded this organization saying Truth is a pathless land and you cannot approach it by any path whatsoever by any religion by any sect Truth being limitless unconditioned unapproachable by any path whatsoever cannot be organized nor should any organization be formed to lead or to coerce people along any particular path My only concern is to set men absolutely unconditionally free Until the end of his life at the age of ninety Krishnamurti traveled the world speaking as a private person The rejection of all spiritual and psychological authority including his own is a fundamental theme A major concern is the social structure and how it conditions the individual The emphasis in his talks and writings is on the psychological barriers that prevent clarity of perception In the mirror of relationship each of us can come to understand the content of his own consciousness which is common to all humanity We can do this not analytically but directly in a manner Krishnamurti describes at length In observing this content we discover within ourselves the division of the observer and what is observed He points out that this division which prevents direct perception is the root of human conflict His central vision did not waver after 1929 but Krishnamurti strove for the rest of his life to make his language even more simple and clear There is a development in his exposition From year to year he used new terms and new approaches to his subject with different nuances Because his subject is all embracing the Collected Works are of compelling interest Within his talks in any one year Krishnamurti was not able to cover the whole range of his vision but broad amplifications of particular themes are found throughout these volumes In them he lays the foundations of

many of the concepts he used in later years The Collected Works contain Krishnamurti's previously published talks discussions answers to specific questions and writings for the years 1933 through 1967 They are an authentic record of his teachings taken from transcripts of verbatim shorthand reports and tape recordings The Krishnamurti Foundation of America a California charitable trust has among its purposes the publication and distribution of Krishnamurti books videocassettes films and tape recordings The production of the Collected Works is one of these activities Confronting Power and Sex in the Catholic Church Geoffrey Robinson, 2008 Drawing on his own experience in responding to abuse Bishop Geoffrey Robinson methodically offers a critique of the church's use and misuse of power from the pope proclaiming infallibly down to the preacher claiming a divine authority for every word spoken from the pulpit Going back to the Bible and above all to the teaching of Jesus he presents an approach to sexual morality that is profound compassionate and people centered He stresses the priority of the hierarchy of holiness over the hierarchy of power He offers nothing less than a vision for a church of the third millennium a church that wants to see in its members the responsibility appropriate to adults rather than the obedience appropriate to children and wants to help all people to grow to become all they are capable of being You will love or hate this book but not be able to remain neutral Through the story of sexual abuse and the church's response I came to the unshakeable belief that within the Catholic Church there absolutely must be profound and enduring change In particular there must be change on the two subjects of power and sex From the Introduction Bishop Geoffrey Robinson who has degrees in philosophy theology and church law was Auxiliary Bishop in the Archdiocese of Sydney from 1984 until his retirement in 2004 In 1994 he was elected by the Australian Bishops to the National Committee for professional Standards coordinating the response of the Catholic Church in Australia to revelations of sexual abuse and from 1997 until 2003 he was cochairman of this committee *Foundations of Modern Macroeconomics* Ben J.
