Cognitive-Behavioural Therapy for ADHD in Adolescents and Adults Susan Young, Jessica Bramham, 2012-04-30
The first edition of this book introduced the Young Bramham Programme a pioneering approach to cognitive behavioural treatment for ADHD in adults which was well received by clinical and academic communities alike Based on the latest findings in the field the authors have expanded the second edition to incorporate treatment strategies not only for adults but also for adolescents with ADHD Updates the proven Young Bramham Programme to be used not only with adults but also with adolescents who are making the difficult transition from child to adult services New edition of an influential guide to treating ADHD beyond childhood which encompasses the recent growth in scientific knowledge of ADHD along with published treatment guidelines Chapter format provides a general introduction a description of functional deficits assessment methods CBT solutions to the problem and a template for group delivery Sleeping Like a Baby Avi Sadeh, 2008-10-01
div Why doesn't my baby sleep better weary parents ask How can we get more sleep There are as many answers to these questions as there are babies and families says Dr Avi Sadeh in this helpful and reassuring some may say indispensable book Based on his years of research with sleep disturbed babies and their sleep deprived parents Dr Sadeh suggests a wide variety of practical solutions to babies and young children's sleep problems Other experts may recommend one strict approach to changing a baby's sleep habits but a single remedy fails to take into account a baby's uniqueness and the dynamics of his or her family Dr Sadeh contends He helps parents first to understand the natural sleep patterns of babies and then to consider their own family's situation and needs In an accessible style designed to ease anxious parents' worries Dr Sadeh describes the various sleep problems of early childhood outlines treatment possibilities and details the pros and cons of each of these choices This book will appeal not only to sleepless parents seeking relief but also to those who are curious about the most recent findings in children's sleep research Dr Sadeh addresses a full range of questions What is the importance of sleep to a baby How do babies in different cultures sleep How is sleep related to development What causes Sudden Infant Death Syndrome How do babies calm themselves What are the advantages and disadvantages of communal sleeping With up to date answers to these questions and more Dr Sadeh offers parents and professionals all the information they need to help babies and their families sleep better
