## **Stranger Souls:**

Stranger Souls Jim Cherry, 2004-10 Of all the stranger souls I've met none are stranger than these none stranger than me The thing is all these selves are me That says it all Stranger Souls is the fragmentation of a personality mine I am the killer the vampire the drunk the lover the star As are you The farther I go in the further I reach out At this point most authors might give a synopsis or an overview of the stories tell you his favorite ones or the genesis of each Stranger Souls is a pastiche of genre s science fiction sword and sorcery are represented as well as traditional fiction to create a whole Each story is a crossroads where the characters meet to try and understand the strategies each employs to avoid the void as it were to fill the hole we all feel within ourselves The world presented may resemble a world you think you're familiar with but it isn't The whole being created is a replication of the known world to explore a truth of life There are two cycles within the stories The first cycle takes place in neighborhood bar from the perspective of its different customers There's also the Hollywood cycle that attempts to study fame and the seeking of fame and how it affects the people involved Stranger Souls is a journey from the darker aspects of life and ourselves to the light and trying to reconcile that darkness with happiness

**Stranger Souls** Jak Koke, 1997      **The English Soul** Augustine Bulteau, 1914      **Stranger's Knowledge** Xavier Marquez, 2012-06-07 The Statesman is a difficult and puzzling Platonic dialogue In A Stranger's Knowledge Marquez argues that Plato abandons here the classic idea prominent in the Republic that the philosopher qua philosopher is qualified to rule Instead the dialogue presents the statesman as different from the philosopher the possessor of a specialist expertise that cannot be reduced to philosophy The expertise is of how to make a city resilient against internal and external conflict in light of the imperfect sociality of human beings and the poverty of their reason This expertise however cannot be produced on demand one cannot train statesmen like one might train carpenters Worse it cannot be made acceptable to the citizens or operate in ways that are not deeply destructive to the city's stability Even as the political community requires his knowledge for its preservation the genuine statesman must remain a stranger to the city Marquez shows how this impasse is the key to understanding the ambiguous reevaluation of the rule of law that is the most striking feature of the political philosophy of the Statesman The law appears here as a mere approximation of the expertise of the inevitably absent statesman dim images and static snapshots of the clear and dynamic expertise required to steer the ship of state across the storms of the political world Yet such laws even when they are not created by genuine statesmen can often provide the city with a limited form of cognitive capital that enables it to preserve itself in the long run so long as citizens and especially leaders retain a philosophical attitude towards them It is only when rulers know that they do not know better than the laws what is just or good and yet want to know what is just and good that the city can be preserved The dialogue is thus in a sense the vindication of the philosopher king in the absence of genuine political knowledge      **Michael Speaks: The Legacy of Sarah Chambers (Volume 3)** Center for Michael Teachings, Inc., 2015-05-25 We are here with you tonight With those few

words in August 1973 Sarah Chambers her husband Richard and their good friends Alice and Dick started a journey that would take them far beyond anything they could possibly imagine They would explore the unseen realm of the spiritual world with their teacher Michael Along with good friend Eugene Trout they would become the creators of a new spiritual teaching based in love that is used to help people become more of who they really are The group kept transcripts of their meetings and those transcripts were quietly copied and passed around to their friends then copied and passed on to their friends Volume 1 contains the transcripts themselves Volume 2 contains the Charts Cartoons Drawings and Compilations by various members of the group as well as background on the members of the group Volume 3 contains additional transcripts from 1978 1985 and updates to Volume 1
