

Death of a Sun-Like Star

Sun-Like
Star

This is the longest, most stable period of a star's life. It converts hydrogen to helium in its core, generating heat and light.

Red
Giant

As the nuclear fuel becomes depleted, the core contracts and the outer layers expand.

Planetary
Nebula

Now the outer layers of the star start to drift off into space. The star loses most of its mass to the nebula.

White
Dwarf

The star cools and shrinks; it will eventually be only a few thousand miles in diameter! No nuclear reactions take place and the faint star radiates its heat into space.

Black
Dwarf

Eventually the star has lost all its heat to space and is now cold and dark.

The Internet in China Zixue Tai, 2007-05-07 The Internet in China examines the cultural and political ramifications of the Internet for Chinese society The rapid growth of the Internet has been enthusiastically embraced by the Chinese government but the government has also rushed to seize control of the virtual environment Individuals have responded with impassioned campaigns against official control of information The emergence of a civil society via cyberspace has had profound effects upon China for example in 2003 based on an Internet campaign the Chinese Supreme People's Court overturned the ruling of a local court for the first time since the Communist Party came to power in 1949 The important question this book asks is not whether the Internet will democratize China but rather in what ways the Internet is democratizing communication in China How is the Internet empowering individuals by fostering new types of social spaces and redefining existing social relations

Communication in China Yuezhi Zhao, 2008-03-20 The stakes for control over the means of communication in China have never been so high as the country struggles with breathtaking social change This authoritative book analyzes the key dimensions of the transformation in China's communication system since the early 1990s and examines

the highly fluid and potentially explosive dynamics of communication power and social contestation during China's rapid rise as a global power Yuezhi Zhao begins with an analysis of the party state's reconfiguration of political economic and ideological power in the Chinese communication system She then explores the processes and social implications of domestic and foreign capital formation in the communication industry Drawing on media and Internet debates on fundamental political economic and social issues in contemporary China the book concludes with a nuanced depiction of the pitched and uneven battles for access and control among different social forces Locating developments in Chinese communication within the nexus of state market and society the author analyzes how the legacies of socialism continue to cast a long shadow The book not only provides a multifaceted and interdisciplinary portrait of contemporary Chinese communication but also explores profound questions regarding the nature of the state the dynamics of class formation and the trajectory of China's epochal social transformation

The Citizen and the Chinese State Perry Keller, 2017-03-02 This volume addresses several core questions regarding the nature of law in China and its future development In particular these articles shed light on whether the rule of law ideal is commensurable with government based on the Chinese Communist Party Beginning virtually from scratch China has established a comprehensive legal system that boasts a constitution primary and secondary legislation and plentiful regulations covering most areas of public and private life Yet as these articles discuss its courts are enmeshed in Party and state hierarchies and are not empowered to directly apply constitutional principles or rights ensuring that the law is subordinate to national public policy goals Legal and extra legal methods for punishing wrongdoing and resolving disputes also raise questions of due process of law Ultimately the question is therefore whether China's legal system if eschewing formalised human rights is developing a capacity to protect fundamental human dignity
