Terrorist Chic Michael Selzer, 1979 **Symbolism in Terrorism** Jonathan Matusitz, 2014-09-16 The symbolic value of targets is what differentiates terrorism from other forms of extreme violence Terrorism is designed to inflict deep psychological wounds on an enemy rather than demolish its material ability to fight The September 11 2001 attacks for example demonstrated the power of symbolism The World Trade Center was targeted by Al Qaeda because the Twin Towers epitomized Western civilization U S imperialism financial success modernity and freedom The symbolic character of terrorism is the focus of this textbook A comprehensive analysis it incorporates descriptions definitions case studies and theories Each chapter focuses on a specific dimension of symbolism in terrorism and explains the contexts and processes that involve the main actors as well as the symbolism of both the purposes and targets of terrorism Also discussed are new religious movements which represent another important aspect of terrorism such as Aum Shinrikyo the Japanese cult that used sarin gas in the Tokyo subway in 1995 Over forty areas of symbolism are covered throughout the chapters including physical and non physical symbolism linguistic symbolism the social construction of reality rituals myths performative violence iconoclasm brand management logos semiotics new media and the global village This allows for an in depth examination of many issues such as anti globalization honor killing religious terrorism suicide terrorism martyrdom weapons female terrorism public communication visual motifs and cyberspace Main concepts are clearly defined and followed by theory illustrated by international case studies Chapter summaries key points review questions research and practice suggestions are recurring components as well This groundbreaking text encompasses all major aspects of symbolism in terrorism and will be an essential resource for anyone studying terrorism **Cinematic Terror** Tony Shaw, 2014-11-20 Cinematic Terror takes a uniquely long view of filmmakers depiction of terrorism examining how cinema has been a site of intense conflict between paramilitaries state authorities and censors for well over a century In the process it takes us on a journey from the first Age of Terror that helped trigger World War One to the Global War on Terror that divides countries and families today Tony Shaw looks beyond Hollywood to pinpoint important trends in the ways that film industries across Europe North and South America Asia Africa and the Middle East have defined terrorism down the decades Drawing on a vast array of studio archives government documentation personal interviews and box office records Shaw examines the mechanics of cinematic terrorism and challenges assumptions about the links between political violence and propaganda

Griffith Rollefson, 2009 **Behavioral and Quantitative Perspectives on Terrorism** Yonah Alexander, John Marquis Gleason, 1981 **Shattering the Stereotypes** Fawzia Afzal-Khan, 2005 In the wake of September 11th Muslim women in the West found themselves more marginalized than ever by a panicked discourse

that did little to promote a true understanding of Islam or the Islamic world Here in this ambitious volume that includes essays poetry fiction memoir plays and artwork Muslim women speak for themselves revealing a complexity of experience and thought that escapes most Western portrayals Islam is as editor Fawzia Afzal Khan puts it only one spoke in the wheel of our lives In *Shattering the Stereotypes* essays by such writers as Ayesha Jalal the Pakistani American historian poems by award winning poets including Suheir Hammad and Nathalie Handal and a selection of short fiction and plays that are not just ethnically but attitudinally diverse together make a more rounded portrait of what it is to be a Muslim woman in the 21st century *The Secret Wars, a Guide to Sources in English: International terrorism, 1968-1980* Myron J. Missing the Point John Elsom,2007 A challenging and timely examination of the philosophical and ideological assumptions that underlie modern Western culture and politics **The Return of the Red Army Faction (RAF)** Ilka Rasch,2007 investigates representations of politically motivated violence since the 1960s focuses on post Wall representations of the Red Army Faction RAF Germany s oldest and most notorious urban guerilla group including fictional films docu fictions literary sources and a controversial museum exhibit An assessment of representations of the RAF in post Wall discourses provides insight into the impact of National Socialism the student movement and the RAF on contemporary developments while laying the foundation for a fuller understanding of the current crisis of transmission triggered by the re unification process The RAF consciously deployed Holocaust iconography and aesthetic strategies central to fascism to create symbolically charged images linking contemporary events and politically motivated violence to Germany s National Socialist past This link to the defining historical moment of German twentieth century history explains why artists have repeatedly turned to representations of the RAF to negotiate post Wall narratives of German history and identity formation assessment of the post Wall artifacts suggests that their conflicting symbolic values represent a crisis of transmission in which historical narratives and generational objects crucial to the New Left are questioned The crisis over the legacy of New Left was triggered by the collapse of socialist regimes around 1989 The Fischer affair has become one of the most prominent examples because it links contemporary politics and politicians to Germany s violent past raising questions about the student movement s and the New Left s responsibility for and relationship to politically motivated violence Since the student movement and its violent aftermath serve as a central touchstone of German politics and culture the current crisis of transmission challenges historical narratives crucial to German identity formation Political Terrorism Jeffrey Ian Ross,2006 The salient feature of this book is its comprehensive but concise approach to the field of terrorism particularly its causes and effects and the application of this information to selected case studies Political Terrorism An Interdisciplinary Approach is easy to read and designed to answer common questions asked by undergraduate and graduate students without prior exposure to the study of terrorism This book is accessible to practitioners those individuals working or aspiring to work in the fields of criminal justice and national security and policymakers in the counterterrorism field as well as members of the

mass media covering stories on terrorism Political Terrorism is sensitive to the global ramifications of terrorism and the responses to it This book maintains a balance between realism and sensationalism and offers a more comprehensive understanding of the causes and effects of terrorism than do most other texts Political Terrorism integrates scholarly analysis with current events by relying on recent media accounts and information gathered by responsible news outlets The text features end of chapter questions as well as exhibit boxes that provide background details on items of interest to students and instructors
