THE COMPLETE VISUAL BASIC .NET TRAINING COURSE

Visual Basic .NET is the most powerful and flexible programming language for the .NET platform. This comprehensive training course covers everything you need to know to get started with Visual Basic .NET, from the basics of programming to advanced topics like web services and security. The course is designed for developers who are new to .NET or who want to refresh their skills. It includes a wealth of examples, exercises, and projects to help you learn by doing. The course is divided into several sections, each focusing on a different aspect of Visual Basic .NET. The first section covers the basics of programming, including variables, data types, and control structures. The second section covers the Visual Basic .NET runtime environment, including the .NET Framework and the Common Language Runtime. The third section covers the Visual Basic .NET class library, including the System namespace and the Windows Forms namespace. The fourth section covers web services, including how to create and consume web services. The fifth section covers security, including how to use the .NET security model. The course concludes with a final project that combines all the concepts learned throughout the course.
