Transnational Management: Text, Cases & Readings in Cross-Border Management Christopher A. Bartlett, Sumantra Ghoshal, Paul W. Beamish, 2008 TRANSNATIONAL MANAGEMENT focuses on the management challenges associated with developing strategies and managing the operations of companies whose activities stretch across national boundaries. The purpose of this book is to provide a conceptual framework of the interplay between the multinational corporation, the countries in which it does business, and the competitive environment in which it operates. Through text, narrative cases, and readings, the authors skillfully examine the development of strategy, organizational capabilities, and management challenges for operating in the global economy.

Contemporary Corporate Strategy John Saeed, 2007-12-21. With the onset of the third millennium, increasing numbers of corporations around the world have been undergoing cultural and mindset shifts, paradigms, and developing corporate strategies that are increasingly attuned to the highly competitive and dynamic business realities arising from globalising national economies around the world. This research book represents an eclectic collection of latest research articles and empirical studies conducted in different parts of the world on corporate strategy, including usually neglected countries of study such as Germany, Turkey, Greece, and Spain. This research book contains over twenty research papers examining various aspects of corporate strategy in different national and international settings. This book is intended to equip readers with the latest knowledge to understand the complexities of corporate strategy both at a theoretical and operational level. Further, the book is specifically written with the needs of the students of strategy, both at an undergraduate and postgraduate level, who may want to gain contemporary knowledge of strategy based on empirical research.

The Strategy Process Henry Mintzberg, Joseph Lampel, James Brian Quinn, 2003. For graduate-level courses in Strategic Management, Business Policy, and Organizational Theory. With the goal of offering students something unique from other texts, this collection of readings, edited by Henry Mintzberg, is combined with cases from Quinn, Lampel, and Ghoshal. Together, they present an up-to-date look at how actual companies act strategically and organize themselves. The authors provide the reader with a richness of theory, a richness of practice, and a strong basis for linkage between the two. Combining the case study approach with theory provides the accumulated benefits of many years of careful research and thought about management processes and emphasizes the authors' belief that in this complex world of organizations, a range of concepts is needed to cut through and illuminate particular aspects of that complexity.
