These revisions ensure that Heavy Weather Sailing is as relevant useful and instructive for today's sailor venturing offshore as it ever was perhaps more so in the light of tragic disasters like the loss of the Cheeky Raffiki mid Atlantic on a delivery trip after her season racing in the Caribbean This is the definitive book for crews of any size contemplating voyages out of sight of land anywhere in the world whether racing or cruising It gives a clear message regarding the preparations required and the tactics to consider when it comes on to blow

**The Capable Cruiser** Lin and Larry Pardey,2010-06-08 Lin and Larry Pardey have now been cruising on board their own boats racing delivering and repairing other people's boats for more than 44 years After west to east and east to west circumnavigations and voyages to more than 75 countries they have a breadth of knowledge that few other boating authors possess Most of the voyaging has been done on an earn as you go budget that could be well within the reach of the majority of those whose dream is to set sail Their motto Go small go simple but go now The Pardeys strengths are neatly symbolized by the boats they have built Each one is romantically traditional with swooping sheerlines and is completely dependent on the wind And yet each boat carries the best strongest and most seamanlike gear Like their vessels the Pardeys writings are founded on a marriage of the spirit of romantic adventure and the practical up to date seamanship that keeps them and their boats safe This revised and
