Street Kids:

Street Kids Kristina E. Gibson, 2011-05-09 Street outreach workers comb public places such as parks vacant lots and abandoned waterfronts to search for young people who are living out in public spaces if not always in the public eye Street Kids opens a window to the largely hidden world of street youth drawing on their detailed and compelling narratives to give new insight into the experiences of youth homelessness and youth outreach Kristina Gibson argues that the enforcement of quality of life ordinances in New York City has spurred hyper mobility amongst the city's street youth population and has serious implications for social work with homeless youth Youth in motion have become socially invisible and marginalized from public spaces where social workers traditionally contact them jeopardizing their access to the already limited opportunities to escape street life The culmination of a multi year ethnographic investigation into the lives of street outreach workers and their kids on the streets of New York City Street Kids illustrates the critical role that public space regulations and policing play in shaping the experience of youth homelessness and the effectiveness of street outreach *Street Kids* Larry Cole, 1970 **School Kids/street Kids** Nilda Flores-González, 2002 Examines the statistics on the low percentage of Latinos graduating high school using the role identity theory to explain the stigmas surrounding the labels of school kid versus street kid **Street Children** Gabriel Julien, 2022-06-30 Street children Who are they Why do they live on the streets Do they deliberately choose to be homeless What quality of life do they enjoy What are the characteristics of these children These questions appear to be simple but the answers are extremely complex In general street children are those who are deprived of their basic rights and dignity as human beings They do not have proper education and are extremely vulnerable to all types of exploitation Street children have complex circumstances and are very vulnerable to exploitation and violence They lack vital services such as education and healthcare because they are marginalized hence they are deprived of their right to education because they work to support themselves or their families so a lot of red tape and bureaucracy will be needed to try to get them into school Very often the public are uninformed about these children and they instinctively judge and cast aspersions on them This book presents a clear understanding about some of the issues that street children encounter daily With the use of existing literature it tries to provide a definition and quantify the number of street children globally It explains the difference between children on and of the streets and highlights some of the notions of street culture and child abuse It is the firm view that if the public are more cognizant of the reasons why these children live on the streets they may be more compassionate This book does not evoke sensationalism but tries as far as possible to create an awareness of the lifestyle of street children **Protecting street children : vigilantes or the rule of law?** , [Street Kids & Streetscapes](#) Marjorie Mayers, 2001 This book illuminates how panhandling acts as the embodiment of the experiences of street life for kids as well as how the streetscape functions as the interface between street kids and the mainstream [Services Available to Street Children in Zimbabwe](#) Nigel Hall, 1995 **Street Kids: Homeless Youth, Outreach, and**
