The Canadian Identity

Kieran Keohane

The Canadian Identity:

   The Canadian Identity William Lewis Morton,1972 W L Morton in The Canadian Identity offers a clear and vigorous interpretation of the history and distinctive national character of Canada Mr Morton discusses the growth and survival of Canada in North America despite the occasional hostility and potent attraction of the United States He explains how Canada achieved freedom and independence within the British Empire and the Commonwealth He touches on the new relations which have developed between Canada and the United States in the world of nuclear power politics and concludes with an assessment of Canada s history during the 1960s in the growing and darkening shadow of the United States This book is meant especially for Canadians who are searching for new orientations in all areas of their nation s life and for Americans who wish to assess a fresh Canadian view of American Canadian history This perceptive study will be required reading wherever Canadian or Common wealth history is taught Born and educated in Manitoba William Lewis Morton graduated from the University of Manitoba in 1932 The following year he went to Oxford as a Rhodes scholar and took his MA there in 1937 He is currently Vanier Professor of History at Trent University His other publications include Manitoba A History and The Progressive Party in Canada   Symptoms of Canada Kieran Keohane,1997 In this provocative essay on the Canadian identity Kieran Keohane gives us his outsider s take on Canada s most debated issue Keohane argue that conflicting objectives have caused the impasse in our search for collective identity These objectives are marked by official multiculturalism a proliferation of interest groups and resurgent xenophobia Integrating social and political theory with witty examples he explores how a strong Canadian identity might be constructed Symptoms of Canada breaks the stalemate in our search for the Canadian identity A refreshing read for Canadians who are tired of the polemics surrounding this issue it offers valuable insight to all countries where the question of identity is a national concern   **The Construction of Canadian Identity from Abroad** Christopher Kirkey,Richard Nimijean,2022-03-20 Migration and the impact that immigrants have on Canada is and always has been central to a robust understanding of Canadian identity However despite claims that the world needs more Canada Canadians their governments and scholars pay much less attention to the estimated 3 million Canadian expatriates who live elsewhere The Construction of Canadian Identity from Abroad features Canadian scholars who live and work outside Canada or have recently returned to Canada and who write and think deeply about identity construction What happens when that Canadian is a scholar whose teaching research and scholarship professional development and or community engagement focuses directly on Canada How does being abroad affect how we interpret Canada In short in what ways does externality affect how Canadian expat scholars intellectually approach construct and identify with Canada This engaging volume is ideal for university students scholars government officials and the general public   *Reconstructions of Canadian Identity* Vander Tavares,Maria João Maciel Jorge,2024-04-19 Re envisioning multiculturalism in Canada In 1971 Canada became the first nation in the world to officially declare its bilingual and

multicultural policies Reconstructions of Canadian Identity examines what has changed over the past fifty years highlighting the lived experiences of marginalized Canadians and offering insights into the critical work that lies ahead Editors Vander Tavares and Maria Jo o Maciel Jorge bring together a wide range of disciplines and perspectives to investigate inclusion and exclusion within the processes discourses and practices that forge and frame Canadian identity Chapters analyze ways current multicultural policies continue to benefit the dominant groups and further harm minoritized ones Exposing the pitfalls of established notions of Canadian identity this volume moves traditionally othered identities immigrant racialized hybridized Indigenous and women to the forefront In doing so it reveals how these identities negotiate and claim legitimacy arguing for a reconceptualization from the margins that truly fosters diversity and inclusion Illustrating both the shortcomings of and possibilities for a more inclusive multiculturalism in Canada Reconstructions of Canadian Identity invites readers to reflect on what it means to be Canadian in the twenty first century   *The Canadian Identity* Don Wells,2005 Examines the diversity of the Canadian people and the many factors which have created Canada s unique identity

Canadian Culture and National Identity Jerry Diakiw,2011-12 Scholarly Essay from the year 2011 in the subject Cultural Studies Canada grade York University language English comment Widely published articles on multiculturalism Teaches at York University Former school principal and school superintendent Nominated for the York Presidents Teaching Award 2010 abstract Many have argued that there is no such thing as a Canadian culture or identity This article explores the history of how schools in the past have shaped a national identity and how cultures transmit their vaules and traditions to their young This article argues that there are twelve commonplaces about Canada that all Canadians regardless of where they live or how long they have lived here can identify with The schools across the country have an obligation to debate argue and explore these twelve commonplaces thereby promoting a shared Canadian culture that is fluid flexible and evolving It argues that these twelve are not fixed in stone but are just a starting point for keeping the conversation going It promotes a revisioning of our culture throiugh a myulticulturalism prism   **Journals of the House of Commons of Canada** Canada. identity that one finds in Canada and what one finds on the European continent There are parallels too between the elements of self doubt that characterize Canadians overall when they think about their country and those of Europeans caught up in their own often fractious attempts to forge a more integrated Europe The author argues that Canada needs Europe as an effective counter weight to the influence of the United States He further argues that at a deeper existential level Canadians need relevant European references to better understand what makes them the kind of North Americans that they are

Journals of the House of Commons of the Dominion of Canada Canada. Parliament. House of Commons,1919 *Is There a Canadian Philosophy?* Gary Brent Madison,Paul Fairfield,Ingrid Harris,2000 Is There a Canadian Philosophy addresses the themes of community culture national identity and universal human rights taking the Canadian example as its focus The authors argue that nations compelled to cope with increasing demands for group recognition may do so in a broadly liberal spirit and without succumbing to the dangers associated with an illiberal adversarial multiculturalism They identify and describe a Canadian civic philosophy and attempt to show how this modus operandi of Canadian public life is capable of reconciling questions of collective identity and recognition with a commitment to individual rights and related principles of liberal democracy They further argue that this philosophy can serve as a model for nations around the world faced with internal complexities and growing demands for recognition from populations more diverse than at any previous time in their histories Published in English **The Canadian Law Times** Edward B.
