

## TRUE FRIENDS

BY ASHLEY CAMPBELL

A friend is like a star that twinkles and glows  
Or maybe like an ocean that gently flows  
A friend is like gold that you should treasure  
And take care of forever and ever  
A friend is like an angel that is there to guide you  
A friend is someone you can trust out of a few  
A friend is more than one in a million  
They are one in ca-zillion  
And you, my friend, are very special  
and so it is official.

## To A Friend:

**How to Be a Friend to a Friend Who's Sick** Letty Cottin Pogrebin, 2013-04-09 Everyone knows someone who's sick or suffering. Yet when a friend or relative is under duress many of us feel uncertain about how to cope. Throughout her recent bout with breast cancer Letty Cottin Pogrebin became fascinated by her friends and family's diverse reactions to her and her illness: how awkwardly some of them behaved, how some misspoke or misinterpreted her needs, and how wonderful it was when people read her right. She began talking to her fellow patients and dozens of other veterans of serious illness, seeking to discover what sick people wished their friends knew about how best to comfort, help, and even simply talk to them. Now Pogrebin has distilled their collective stories and opinions into this wide-ranging compendium of pragmatic guidance and usable wisdom. Her advice is always infused with sensitivity, warmth, and humor. It is embedded in candid stories from her own and others' journeys and their sometimes imperfect interactions with well-meaning friends. *How to Be a Friend to a Friend Who's Sick* is an invaluable guidebook for anyone hoping to rise to the challenges of this most important and demanding passage of friendship.

atomic physics deals with the atom as a system consisting of a nucleus and electrons nuclear physics deals with the nucleus as a system consisting of nucleons protons and neutrons the main difference is in the scale while the term atomic deals with 1Å 10 10 m where Å is an ångström according to anders jonas Ångström the term
