To Conquer Chaos F277:

John Brunner Jad Smith,2013-01-30 Under his own name and numerous pseudonyms John Brunner 1934 1995 was one of the most prolific and influential science fiction authors of the late twentieth century During his exemplary career the British author wrote with a stamina matched by only a few other great science fiction writers and with a literary quality of even fewer importing modernist techniques into his novels and stories and probing every major theme of his generation robotics racism drugs space exploration technological warfare and ecology In this first intensive review of Brunner s life and works Jad Smith carefully demonstrates how Brunner s much neglected early fiction laid the foundation for his classic Stand on Zanzibar and other major works such as The Jagged Orbit The Sheep Look Up and The Shockwave Rider Making extensive use of Brunner s letters columns speeches and interviews published in fanzines Smith approaches Brunner in the context of markets and trends that affected many writers of the time including Brunner s uneasy association with the New Wave of science fiction in the 1960s and 70s This landmark study shows how Brunner s attempts to cross fertilize the American pulp tradition with British scientific romance complicated the distinctions between genre and mainstream fiction and between hard and soft science fiction and helped carve out space for emerging modes such as cyberpunk slipstream and biopunk
