To Fall Like Stars

To Fall Like Stars:

Revelation William C. Weinrich, Thomas C. Oden, 2005-12-09 The Revelation to John with its vivid images and portraits of conflict leading up to the formation of a new heaven and a new earth was widely read even as it was variously interpreted in the early church Drawing heavily on both Eastern and Western ancient commentators much appearing in English for the first time this ACCS volume is a treasure trove of early interpretation A caveat to the standing Christian, and to him that thinketh he standeth William Gearing, 1666 **Revelation 1-11 (ITC)** Peter J. Leithart, 2018-02-22 The Book of Revelation is the last book in the canon of the New Testament and its only apocalyptic document though there are short apocalyptic passages in various places in the gospels and the epistles This first of two volumes on Revelation offers systematic and thorough interpretation of the book of Revelation Revelation brings together the worlds of heaven earth and hell in a final confrontation between the forces of good and evil Its characters and images are both real and symbolic spiritual and material and it is frequently difficult to know the difference between them Revelation s cryptic nature has ensured that it would always be a source of controversy This commentary focuses on the theological content gleaning the best from both the classical and modern commentary traditions and showing the doctrinal development of Scriptural truths Scholarship on the book of Revelation has nonetheless not only endured but even captured the imagination of generations of Bible students both professionals and laypeople alike Through its focus on the message of the book through scholarly analysis this International Theological Commentary reconnects to the ecclesial tradition of biblical commentary as an effort in ressourcement though not slavish repetition **Fourteen Weeks Course in Descriptive Astronomy** Joel Dorman Steele, 1876 The Book of Revelation G. K. Beale, 2013-09-07 This commentary series is established on the presupposition that the theological character of the New Testament documents calls for exegesis that is sensitive to theological themes as well as to the details of the historical linguistic and textual context Such thorough exegetical work lies at the heart of these volumes which contain detailed verse by verse commentary preceded by general comments on each section and subsection of the text An important aim of the NIGTC authors is to interact with the wealth of significant New Testament research published in recent articles and monographs In this connection the authors make their own scholarly contributions to the ongoing study of the biblical text The text on which these commentaries are based is the UBS Greek New Testament edited by Kurt Aland and others While engaging the major questions of text and interpretation at a scholarly level the authors keep in mind the needs of the beginning student of Greek as well as the pastor or layperson who may have studied the language at some time but does not now use it on a regular basis Journal of the British Astronomical Association, 1909 Vol 53 54 includes prospectus entitled Its Nature aims and methods *Astronomy* David Peck Todd, 1922 **The Volta Review**, 1921 Independent Sixth Reader; Containing a Complete Scientific and Practical Treatise on Elocution, Select Readings and Recitations James Madison Watson, 1877 *The International Encyclopedia of Prose and Poetical Quotations from the Literature of the World*
