When Food Is Comfort Julie M. Simon, MA, MBA, LMFT, 2018-02-10 Learn Inner Nurturing and End Emotional Eating If you regularly eat when you're not truly hungry, choose unhealthy comfort foods, or eat beyond fullness, something is out of balance. Recent advances in brain science have uncovered the crucial role that our early social and emotional environment plays in the development of imbalanced eating patterns. When we do not receive consistent and sufficient emotional nurturance during our early years, we are at greater risk of seeking it from external sources such as food. Despite logical arguments, we have difficulty modifying our behavior because we are under the influence of an emotionally dominant part of the brain. The good news is that the brain can be rewired for optimal emotional health. **When Food Is Comfort** presents a breakthrough mindfulness practice called Inner Nurturing, a comprehensive step-by-step program developed by an author who was herself an emotional eater. You'll learn how to nurture yourself with the loving kindness you crave and handle stressors more easily so that you can stop turning to food for comfort. Improved health and self-esteem, more energy, and weight loss will naturally follow.

The Structure House Weight Loss Plan Gerard J. Musante, 2007-04-03 It's Not Food That Makes You Fat: It's Your Relationship with Food. Health magazine named **The Structure House Weight Loss Plan** one of America's Top 10 Healthiest Diets. Dr. Gerard Musante and his world-renowned residential weight loss center, Structure House in Durham, North Carolina, have helped more than 30,000 people lose weight. Now, Dr. Musante's innovative ideas and effective treatment methods are yours for the cost of this book. During his thirty years of practice, Dr. Musante has shown that it is your relationship with food that determines your ability to reach your ideal weight. His system targets behaviors resulting from habit, boredom, or stress that lead to unstructured eating—eating for non-nutritional reasons—and presents concrete methods for designing new structured eating patterns to develop a weight loss plan that finally works. You'll learn to isolate your unhealthy eating, recognize and neutralize the food triggers that cause your unstructured eating, and stop using food to satisfy needs other than hunger. Dr. Musante's method gets to the root of these behaviors by helping you reconstruct your daily experience with food and therefore the choices you make about what to eat. Using the proven Structure House approach, you'll be in control of food, not controlled by it. And then finally, you'll be able to lose weight successfully and keep it off.
