**The Social Life of Pots** Judith A. Habicht-Mauché, Suzanne L. Eckert, Deborah L.

Huntley, 2022-09-06 The demographic upheavals that altered the social landscape of the Southwest from the thirteenth through the seventeenth centuries forced peoples from diverse backgrounds to literally remake their worlds transformations in community identity and power that are only beginning to be understood through innovations in decorated ceramics In addition to aesthetic changes that included new color schemes new painting techniques alterations in design and a greater emphasis on iconographic imagery some of the wares reflect a new production efficiency resulting from more specialized household and community based industries Also they were traded over longer distances and were used more often in public ceremonies than earlier ceramic types Through the study of glaze painted pottery archaeologists are beginning to understand that pots had social lives in this changing world and that careful reconstruction of the social lives of pots can help us understand the social lives of Puebloan peoples In this book fifteen contributors apply a wide range of technological and stylistic analysis techniques to pottery of the Rio Grande and Western Pueblo areas to show what it reveals about inter and intra community dynamics work groups migration trade and ideology in the precontact and early postcontact Puebloan world The contributors report on research conducted throughout the glaze producing areas of the Southwest and cover the full historical range of glaze ware production Utilizing a variety of techniques continued typological analyses optical petrography instrumental neutron activation analysis X ray microprobe analysis and inductively coupled plasma mass spectroscopy they

develop broader frameworks for examining the changing role of these ceramics in social dynamics By tracing the circulation and exchange of specialized knowledge raw materials and the pots themselves via social networks of varying size they show how glaze ware technology production exchange and reflected a variety of dynamic historical and social processes Through this material evidence the contributors reveal that technological and aesthetic innovations were deliberately manipulated and disseminated to actively construct communities of practice that cut across language and settlement groups The Social Life of Pots offers a wealth of new data from this crucial period of prehistory and is an important baseline for future work in this area Contributors Patricia Capone Linda S Cordell Suzanne L Eckert Thomas R Fenn Judith A Habicht Mauche Cynthia L Herhahn Maren Hopkins Deborah L Huntley Toni S Laumbach Kathryn Leonard Barbara J Mills Kit Nelson Gregson Schachner Miriam T Stark Scott Van Keuren
