Gendered Worlds Judy Root Aulette, Judith G. Wittner, Kristin Blakely, 2009 In *Gendered Worlds* the authors use the sociological imagination to explore gender relations throughout the world They look at how concrete forms of gender race class and sexual inequality operate transnationally examine the impact of globalization on local and everyday life experiences and identify how local actors re-imagine social possibilities resist injustice and work toward change Integrating theory with empirical studies that are of particular interest to college students including research on violence sports and sexuality the authors make gender concepts genuinely interesting and accessible They also demonstrate how students can think critically about gender both within and beyond the classroom Each chapter begins with an opening scenario about an individual experience of gender and then traces how macro level factors shape that micro experience A section entitled *Gender Matters* follows each chapter to summarize the micro macro connection
