**The School Library Program in the Curriculum** Ken Haycock, 1990 *Toward a 21st-Century School Library Media Program* Esther Rosenfeld, David V. Loertscher, 2007-10-15 This collection of enlightening and stimulating articles written by some of the most important figures in school librarianship demonstrates how teacher librarians, classroom teachers, and administrators can work together to create a 21st-century school library media program. With topics that emphasize student success, leadership, partnerships, curriculum design, collaborative planning, and teaching literacy, 21st-century skills, emerging technologies, and so much more, this compendium brings together the best of the best discussions. The practicing teacher librarian as well as the student seeking to expand his or her knowledge of the field will find this compilation especially beneficial in providing an overview of the most critical issues related to the role the teacher librarian plays in their school. The articles, previously published in the peer-reviewed *Teacher Librarian*, *The Journal for School Library Professionals*, with several included from the magazine *VOYA*, *Voice of Youth Advocates*, reveal how school libraries and teacher librarians are moving forward to meet the challenges of this new century. [Seven Steps to an Award-Winning School Library Program](#) Ann M. Martin, 2012-01-05 This comprehensive book takes the reader through the necessary steps to develop user buy-in and assistance in creating a learner-driven library program. The result: A unique exemplary school library program that is eligible for national awards. Creating an award-winning school library program involves more than simply following the guidelines and standards available that describe what an exemplary program should accomplish. Effecting the changes necessary is often a process that presents multiple challenges along the way, especially when there is insufficient buy-in to the changes. This updated second edition of *Seven Steps to An Award-Winning School Library Program* begins with a description of an existing model school library program and then describes steps that emphasize how to develop user buy-in and assistance in achieving the results of a learner-driven library program. In addition to providing descriptions of detailed actions to perform, advice on working with staff, and background information on change theory, this book also includes practical documents, diagrams, processes, workshop ideas, lesson plans, and tips when filling out applications for awards. *School Library Programs in Rural Areas* Joint Committee for School Library Programs in Rural Areas, 1966 **Standards for School Library Programs** American Association of School Librarians, American Association of School Librarians. How do you accomplish a technology transformation at a time when budgets are extremely limited? What is the proper location for web-based social networking in the school library?
