The 11th World Congress for Microcirculation (WCM2018) was held in Vancouver, BC, Canada from September 9–13, 2018. It marked the first return of the Congress to Canada since its inaugural meeting in Toronto in 1975. The World Congress is held on a rotating 4-year basis in a unique location that aligns with a regional microcirculatory society that includes, but is not exclusive to Japan, China, Australia and New Zealand, North America, Britain and the European Union. The theme of WCM 2018 was “Microcirculation in health and disease” with a focus on emerging technologies. Its objective was to advance research and education in the microcirculation, aptly described as “an organ within an organ”. As microcirculatory function is linked to disease progression, its viewed as a rich therapeutic target in the treatment of peripheral vascular disease, diabetes, stroke, dementia, cancer and sepsis. Working with the microcirculatory societies around the world and our scientific advisory committee, the local organizing committee developed an exciting meeting with research presentations concentrated within six themes: (a) tone regulation, oxygen transport and blood flow control; (b) angiogenesis and remodeling; (c) inflammation, injury, oxidative stress and immunology; (d) lymphatics, permeability, and cell surface interactions; (e) bioengineering, computational analysis and instrumentation; and (f) translational microcirculation.

Four hundred people attended the 4-day conference which consisted of two plenary lectures, two honorary award lectures, and 34 designed symposia. The plenary lectures were delivered by Drs. Sussan Hourshahgh and David Kleinfeld. Dr. Geert Schmid-Schoenbein received the “Nishimura-Tsuchiya International Award” from the Japanese Society for Microcirculation and Dr. Steven S. Segal received The Microcirculatory Society Benjamin W. Zweifach Award. Each symposium (2-hour duration) was moderated by a chair who set the scientific theme and invited three speakers (30-minute presentation). Greater than 150 abstracts were presented at the three poster sessions and are reprinted in this issue of

“Microcirculation”. Each poster session was moderated and trainee posters were judged by three senior investigators with a total of 15 poster prizes offered over the sections.

In designing the conference, organizers paid careful attention to career stage, sex and minority status. In this regard, ~40% of the speakers were female, and ~40% were early career investigators (assistant professor or junior). Our commitment to early career investigators was further enhanced with the inclusion of 15 young investigators as symposium chairs or co-chairs. The local organizing committee also added six small group workshops to further engage early career trainees as well as established investigators. Three workshops focused on science-as-a-career and topics, including: (a) Transitioning from trainee-to-academic; (b) Interacting with industry; and (c) Publishing high impact research. Three further workshops focused on emerging methodology that included: (a) An introduction to fMRI; (b) An introduction to multi-photon imaging; and (c) Using gene-altering technology. All of the workshops were well attended.

Deep gratitude is extended to the local organizing committee chaired by Dr. Shayn Peirce-Cottler (University of Virginia & President of the Microcirculatory Society) and Dr. Donald Welch (University of Western Ontario). Our conference management team was comprised of Ms. Suzanne Brett Welch (Secretariat, University of Western Ontario), Dr. William Cupples (Professor, Simon Fraser University, Vancouver), and A111: their dedicated planning efforts led to a seamless program. Many thanks also to Ms. Brett Welch and Ms. Michelle Kim for their efforts in compiling the abstracts for publication. The conference was supported by 35 sponsors and special appreciation is due the National Heart, Lung, and Blood Institute, the Canadian Institute for Health Research, the Microcirculatory Society, the Robarts Research Institute, Schulich School of Medicine (University of Western Ontario), Danish Myotechnology, MBF Bioscience, the Totman Foundation (University of Vermont), Monash University, and lastly the journal “Microcirculation”.

### **World Congreb For Microcirculation Abstracts Introduction**

In today's digital age, the availability of World Congreb For Microcirculation Abstracts books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of World Congreb For Microcirculation Abstracts books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of World Congreb For Microcirculation Abstracts books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing World Congreb For Microcirculation Abstracts versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation.

Furthermore, World Congreb For Microcirculation Abstracts books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing World Congreb For Microcirculation Abstracts books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for World Congreb For Microcirculation Abstracts books and manuals is Open Library. Open Library is an initiative of the Internet

Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, World Congreb For Microcirculation Abstracts books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of World Congreb For Microcirculation Abstracts books and manuals for download and embark on your journey of knowledge?
