The first part of the book concentrates on learning to write It begins with a discussion of what writing is suggests ways of starting to write considers the role of audience in writing and then examines strategies for drafting These strategies are arranged in order of difficulty and each builds on the previous one so that for example argument or writing to convince includes strategies of narration and explanation Exploratory writing comes last in this section because it is the most difficult and inclusive kind of writing The exercises throughout these chapters provide opportunities to use what has just been learned and suggestions for further writing invite more extensive prose Part two focuses on writing to show learning by discussing strategies for revising These strategies include reseeing entire pieces of writing in terms of organization cohesion and style reshaping paragraphs and sentences and polishing writing to conform with conventions of spelling punctuation capitalization usage and accepted formats such as documentation style The index provides easy reference for questions about writing page ix
