Kownslar,2020 The Great Texas Social Studies War of 1961 1962 was among the most extensive social studies textbook confrontations in the nation s history certainly the most extensive in the Lone Star State What was unique was that this was the first time it brought forth such a widespread confrontation between Texas conservatives and Texas liberals over what should appear in social studies programs The monumental confrontation between those Texas conservatives and liberals brought out a star studded cast of rather colorful spokespersons concerned with the content of social studies textbooks Whether conservative or liberal what they had to say in their public testimonies showed they spoke with sincerity conviction and passion Equally important their public testimonies are every bit as relevant today as they were in 1961 1962 Provided by publisher **Society and the Social Sciences** ,1988 **The Philosophy of Social Science** Martin Hollis,1994-09-01 This textbook by Martin Hollis offers an exceptionally clear and concise introduction to the philosophy of social science It examines questions which give rise to fundamental philosophical issues Are social structures better conceived of as systems of laws and forces or as webs of meanings and practices Is social action better viewed as rational behaviour or as self expression By exploring such questions the reader is led to reflect upon the nature of scientific method in social science Is the aim to explain the social world after a manner worked out for the natural world or to understand the social world from within **Social Science : Textbook for Elementary and Middle Schools** M. Aleksandrov,1935 **Contemporary Society** John A Perry,Erna K Perry,2015-08-27 This best selling text emphasizes that social and cultural changes are the pervasive realities of our era One of the main themes of Contemporary Society is that the transition from an industrial to a post industrial order in the modern world is fraught with difficulties as was the transition from an agricultural to an industrial order in an earlier era Within this framework we can observe the increasing

fragmentation of the social order which tends to lead people away from community and a common purpose and often invites conflict and disunity At the same time countervailing social forces are also at work providing some stability some shelter in the storm Finally societies are faced with the rapid and transformative power of information technology a fact that propels separate groups of people into a global entity *Social Science Reference Sources* Tze-chung Li,1980
