**The Love We Share Without Knowing** Christopher Barzak, 2008-11-25 In this haunting richly woven novel of modern life in Japan the author of the acclaimed debut *One for Sorrow* explores the ties that bind humanity across the deepest divides Here is a Murakamiesque jewel box of intertwined narratives in which the lives of several strangers are gently linked through love loss and fate On a train filled with quietly sleeping passengers a young man s life is forever altered when he is miraculously seen by a blind man In a quiet town an American teacher who has lost her Japanese lover to death begins to lose her own self On a remote road amid fallow rice fields four young friends carefully take their own lives and in that moment they become almost as one In a small village a disaffected American teenager stranded in a strange land discovers compassion after an encounter with an enigmatic red fox and in Tokyo a girl named Love learns the deepest lessons about its true meaning from a coma patient lost in dreams of an affair gone wrong From the neon colors of Tokyo with its game centers and karaoke bars to the bamboo groves and hidden shrines of the countryside these souls and others mingle revealing a profound tale of connection uncovering the love we share without knowing Exquisitely perceptive and deeply affecting Barzak s artful storytelling deftly illuminates the inner lives of those attempting to find or lose themselves in an often incomprehensible world

**The Rule of Law and the Separation of Powers** Richard Bellamy, 2017-07-05 The rule of law is frequently invoked in political debate yet rarely defined with any precision Some employ it as a synonym for democracy others for the subordination of the legislature to a written constitution and its judicial guardians It has been seen as obedience to the duly recognised government a form of governing through formal and general rule like laws and the rule of principle Given this diversity of view it is perhaps unsurprising that certain scholars have regarded the concept as no more than a self congratulatory rhetorical device This collection of eighteen key essays from jurists political theorists and public law political scientists aims to explore the role law plays in the political system The introduction evaluates their arguments The first eleven essays identify the standard features associated with the rule of law These are held to derive less from any characteristics of law per se than from a style of legislating and judging that gives equal consideration to all citizens The next seven essays then explore how different ways of separating and dispersing power contribute to this democratic style of rule by forcing politicians and judges alike to treat people as equals and regard none as above the law

Good Knowledge, Bad Knowledge Stephen Hetherington, 2001-10-18 What is knowledge How hard is it for a person to have knowledge Good Knowledge Bad Knowledge confronts contemporary philosophical attempts to answer those classic questions by identifying and arguing against two fundamental epistemological presumptions Can there be both better and worse knowledge of some fact Can you improve your knowledge of a particular fact Can there be especially bad knowledge of a specific fact Epistemologists routinely answer these questions with a resounding No But Stephen Hetherington argues that those standard answers are mistaken The result is a theory of knowledge that is unique in conceiving of knowledge in a non

absolutist way The theory offers new solutions to many traditional epistemological puzzles including various kinds of scepticism the Gettier challenge and the problem of the criterion It also offers a fresh way of using G E Moore s anti sceptical gambit along with reinterpretations of the epistemic roles of fallibility luck relevance and dogmatism And what can we know about knowledge The role of intuition in shaping epistemological thought about knowledge is critically examined Anyone working on epistemology will enjoy this original and challenging work
