Schmidt,1999-10-11 Object Technology A gold mine of enterprise application frameworks Implementing Application Frameworks While frameworks can save your company millions in development costs over time the initial investment can be quite high This book CD ROM package helps you to reduce the cost of framework development by providing 40 case studies documenting the experiences of framework builders and users at major corporations and research labs worldwide Throughout the authors extract important lessons and highlight technical and organizational implementation practices that have been proven to yield the biggest payoff Focusing primarily on business systems and agent based application frameworks it covers frameworks for Data processing Agent based

applications Artificial intelligence applications Object oriented business processes System application frameworks  
Programming languages and tools And much more The enclosed CD ROM gives you Example frameworks Documentation and  
manuals Framework code and implementation tips Sample framework architectures and models Design patterns and  
presentations Animated demonstrations *A Constraint Logic Approach to Automated Modal Deduction* Richard Brian  
Scherl, University of Illinois at Urbana-Champaign. Department of Computer Science, 1993 The integration of these special  
purpose reasoners and the general deductive system is accomplished by drawing upon general results in the area of hybrid  
reasoning It is argued that a number of existing modal deduction methods can be viewed as instances of this general  
framework The advantages of the general approach are simple proofs of correctness for various instances of the framework  
applicability to a wide variety of logics and proof methods and ease in incorporating additional features not currently  
available in automated modal deductive systems The greater expressivity of logics with these additional features is needed in  
many A I applications of modal logic such as reasoning about knowledge and action *Equal Opportunities Review*, 1989
