**I Am You** Daniel Kolak, 2007-11-03 Borders enclose and separate us We assign to them tremendous significance Along them we draw supposedly uncrossable boundaries within which we believe our individual identities begin and end erecting the metaphysical dividing walls that enclose each one of us into numerically identical numerically distinct entities persons Do the borders between us physical psychological neurological causal spatial temporal etc merit the metaphysical significance ordinarily accorded them The central thesis of *I Am You* is that our borders do not signify boundaries between persons We are all the same person Variations on this heretical theme have been voiced periodically throughout the ages the Upanishads Averro's Giordano Bruno Josiah Royce Schrödinger Fred Hoyle Freeman Dyson In presenting his arguments the author relies on detailed analyses of recent formal work on personal identity especially that of Derek Parfit Sydney Shoemaker Robert Nozick David Wiggins Daniel C Dennett and Thomas Nagel while incorporating the views of Descartes Leibniz Wittgenstein Schopenhauer Kant Husserl and Brouwer His development of the implied moral theory is inspired by and draws on Rawls Sidgwick Kant and again Parfit The traditional commonsense view that we are each a separate person numerically identical to ourselves over time i.e. that personal identity is closed under known individuating and identifying borders what the author calls Closed Individualism is shown to be incoherent The demonstration that personal identity is not closed but open points collectively in one of two new directions either there are no continuously existing self identical persons over time in the sense ordinarily understood the sort of view developed by philosophers as diverse as Buddha Hume and most recently Derek Parfit what the author calls Empty

Individualism or else you are everyone i e personal identity is not closed under known individuating and identifying borders what the author calls Open Individualism In making his case the author offers a new explanation both of consciousness and of self consciousness constructs a new theory of Self explains psychopathologies e g multiple personality disorder schizophrenia shows Open Individualism to be the best competing explanation of who we are provides the metaphysical foundations for global ethics The book is intended for philosophers and the philosophically inclined physicists mathematicians psychiatrists psychologists linguists computer scientists economists and communication theorists It is accessible to graduate students and advanced undergraduates

*BLUMENSTAND* Frank Luger, 2019-07-23 Blumenstand German for Flowers stand is an almost comprehensive collection of the Author's nonscientific essays and miscellaneous writings covering a period of more than thirty five years The articles touch upon a great variety of both academic and non academic topics from anthropology to sociology from psychology to philosophy from history to music from literature to politics and political science from religion to morality from chess playing to dart playing from horseracing and travel to whisky distilling etc For the sake of levity even some jokes and humorous anecdotes are included However there is no unifying theme as such and neither the collection nor its presentation has any particular sequence or structure The book is richly illustrated as per topic relevance It is sincerely hoped that this modest anthology will serve both informative and entertaining purposes This is a recently completed original literary work first published in December 2007 and re published in July 2019
