Solo In The New Order:

Solo in the New Order James T. Siegel, 1993-09-27 In this brilliant ethnography of contemporary Java James Siegel analyzes how language operates to organize and to order an Indonesian people. Despite the imposition of Suharto's New Order, the inhabitants of the city of Solo continue to adhere to their own complex ideas of deference and hierarchy through translation between high and low Javanese speech styles. Siegel uncovers moments when translation fails and compulsive mimicry ensues. His examination of communication and its failures also exposes the ways a culture reconstitutes itself. It leads to insights into the accidents that precede the formulations of culture as such.

Adolescents in Contemporary Indonesia Lyn Parker, Pam Nilan, 2013-07-18 The youth demographic is a large and growing cohort in Indonesia and adolescents embody the currents of social change. Throughout the twentieth century they were significant agents of social protest leading to social and political transformation. This book looks at the importance of adolescents in contemporary Indonesia and how they are spearheading not just globalisation and a growing consumer youth culture but also the Islamisation movement. The book explores both the inner worlds and social selves of Indonesian adolescents. It presents an in-depth knowledge of Indonesian society and culture in various parts of Indonesia and discusses national patterns and trends. Grounded in two field sites, the book enables an analysis of young people's local ethnic and religious identities and their commitment to the Indonesian nation state. It goes on to look at the physical age bracket of youth, the definitions used by the Indonesian state and other agencies, and the perceptions of youth themselves about adolescence and adulthood. Providing a comprehensive study of young people in contemporary Indonesia, the book addresses gender relations, the importance of education for youth, and youth engagement with popular culture and the moral issue concerning the sexual propriety of young people. It is a useful contribution for students and academics of Asian Studies, Sociology, and Cultural Studies.

Islamic Populism in Indonesia and the Middle East Vedi R. Hadiz, 2016-02-05 This book compares the evolution of Islamic populism in Indonesia and the Middle East to shed new light on contemporary Islamic politics.

Ghosts of Spirits Jon Bialecki, 2000

On the Subject of "Java" John Pemberton, 2018-08-06 What are the limits of cultural critique? What are the horizons? What are the political implications? John Pemberton explores these questions in this far-reaching ethnographic and historical interpretation of cultural discourse in Indonesia since 1965. Pemberton considers in particular how the appearance of order under Soeharto's repressive New Order regime is an effect of an enigmatic politics founded upon routine appeals to cultural values. Through a richly textured ethnographic account of events ranging from national elections to weddings, Pemberton simultaneously elucidates and disturbs the contours of the New Order cultural imaginary. He pursues the fugitive signs of circumstances that might resist the powers of New Order rule through unexpected village practices among graveyard spirits and within ascetic refuges. Key to this study is a reexamination of the historical

conditions under which a discourse of culture emerges Providing a close reading of a number of Central Javanese manuscripts from the late eighteenth century on Pemberton outlines the conditions of knowledge formation in Indonesia since the beginning of Dutch colonial control As he overturns common assumptions concerning colonial encounters he discloses the gradual emergence in these texts of a discursive figure inscribed in contrast to the increasingly invasive presence of the Dutch a figuration of difference that came to be called Java *Our Bit* Charles Herbert Mayo,1920
