**Human Behavior in Organizations** Rodney C. Vandaveer, Michael L. Menefee, 2010 Java Programming From The Ground Up with its flexible organization teaches Java in a way that is refreshing fun interesting and still has all the appropriate programming pieces for students to learn The motivation behind this writing is to bring a logical readable entertaining approach to keep your students involved Each chapter has a Bigger Picture section at the end of the chapter to provide a variety of interesting related topics in computer science The writing style is conversational and not overly technical so it addresses programming concepts appropriately Because of the flexible organization of the text it can be used for a one or two semester introductory Java programming class as well as using Java as a second language

Human Behavior in the Social Environment José B. Ashford, Craig W. LeCroy, Kathy L. Lortie, 2001 In this revision of their ground breaking book the authors offer an even more balanced integrated and applied text In addition the book's multidimensional framework integration of the biopsychosocial dimensions for assessing social functioning attention to foundation knowledge and diversity and use of case studies to illuminate the applied aspects of HBSE content all combine to give readers an experience that is meaningful and exciting Using a unique multidimensional framework for assessing behavior the authors look at biopsychosocial development across the life span Essentially the framework provides a concrete tool for the reader to assess human behavior from a perspective that truly reflects the values and knowledge base of the social work profession Lively and comprehensive this book succeeds by helping students connect foundation knowledge with practice concerns
