migration deportation and refugee camps And while the geographic range covered by contributors is hardly global it is broad Chile Rwanda Canada the US Central Europe Morocco Algeria South Africa France and Spain And yet is to so characterize the camp to run the risk of diffusing what in origin is a concentration into a paratactical series of identity particularisms While The Camp does not seek to antithetically promulgate a universalist vision it does aim to explore the imbrication of the particular and the universal to analyze the structure of a camp or camps and to call attention the role of the listener in the construction of the testimony For by naming what cannot be said is not every narrative of internment and exclusion a potential site of agency articulating the inner splitting of language that Giorgio Agamben defines as the locus of testimony to bear witness is to place oneself in one's own language in the position of those who have lost it to establish oneself in a living language as if it were dead or in a dead language as if it were living
