Diseases of Shade Trees Terry A. Tattar,2013-10-02 Diseases of Shade Trees provides an introduction to tree diseases for students and others concerned with the care of shade and ornamental trees Diseases of woody plants fall into two major categories infectious diseases and noninfectious diseases Part I of the book presents the infectious pathogens and the diseases they cause These include bacteria mycoplasmas nematodes seed plants and viruses The nature of the fungi is also presented with separate chapters for leaf root rust stem and wilt diseases caused by fungi Wound diseases which are associated with both fungi and bacteria that invade wounds are included in this section Part II deals with noninfectious agents and the diseases they cause Noninfectious agents are separated into environmental stress animal injury and people pressure diseases Diebacks and declines complex diseases which are often caused by a combination of both infectious and noninfectious agents are also included in this section Part III on special topics includes discussions of nonpathogenic conditions often mistaken for diseases diagnosis of tree diseases and living hazard trees

Diseases of Shade Trees, Revised Edition Terry A. Tattar,2012-12-02 This revised edition maintains the clear nontechnical format of the first and covers the infectious diseases of shade trees the major pathogens that cause them and noninfectious diseases and their agents Special topics include nonpathogenic conditions disease diagnosis and tree injection and implantation Comprehensive disease control protocols a detailed discussion of disease diagnosis and tree diseases of the western and southern United States are among the useful additions to this widely used text and reference This is an essential book for arboriculturists and students of arboriculture Only text available that deals exclusively with the diseases of shade trees Emphasizes abiotic problems of shade trees which account for most of the losses in the urban environment
